delivery
timeline

Superior
design provides
enhanced
fuel cycle and
plant economics

World's **largest**
supplier of
nuclear fuel
with world-class
partner network

EnCore® Fuel We're changing nuclear energy...again.

Westinghouse EnCore® fuel is a game-changing accident-tolerant fuel solution that is intended to provide design-basis altering safety and significant economic benefits, as well as greater uranium efficiency.

As the leading supplier of nuclear fuel globally, Westinghouse has access to a world-class network of research, design and manufacturing partners. We are collaborating to deliver EnCore fuel on an aggressive, accelerated schedule.
