

Park Nuclear
POWER GENERATION SOLUTIONS

Park Nuclear — Powering the Future with Proven Solutions

For over 30 years, **Park Nuclear** has been a trusted partner to the nuclear industry, providing unmatched expertise in sourcing, engineering, and delivering critical components.

✓ **350,000 Electrical, I&C, and Mechanical Parts**

Extensive inventory to keep your plant running

✓ **Largest ASME & Safety-Related Valve Inventory**

In-Stock, Ready to ship

✓ **Obsolescence Solutions & Reverse Engineering**

Breathing new life into legacy systems

✓ **SPARES Program**

Sustainable Parts and Reliable Equipment Solutions, aligned with IER 21-4

✓ **New Owner of the 53MC5000 Product Line**

Full support coming soon for high-resolution displays and controllers

ELECTRICAL - Circuit Boards - - Circuit Breakers - - Motors - - Power Supplies - - Relays - - Starters/Contactors - - Switches - - Transformers -	OBSOLETE PART SOLUTIONS - Largest Surplus Parts Inventory - - Obsolescence Program Management - - Expedited Shipping - - Equivalency Evaluations - - Inventory Marketing Program - - Strategic Alternate Sourcing - - Back Log Reduction Solutions -
INSTRUMENTATION & CONTROL - Annunciator Panels - - Controllers - - Flow Meters - - Gauges - - Meters - - Positioners - - Recorders - - Radiation Monitoring - - Seismic Monitoring - - Transmitters -	REPAIR & TESTING SERVICES - Expedited Repairs - - Quick 3-5 Day Turnaround - - 100 Hour Burn-In - - On-Site Testing - - Shelf Life Renewal - - Failure Analysis Reports - - Test Plan Setup - - Parts Quality Program Management - - Battery Replacement -
