

TEXAS A&M UNIVERSITY
Department of
Nuclear Engineering

The Department of Nuclear Engineering (NUEN) at Texas A&M University invites applications for two full-time tenured or tenure-track open rank positions and one Academic Professional Track position with a 9-month academic appointment, and the possibility of an additional summer appointment contingent upon need and availability of funds, beginning August 1, 2025.

TEXAS A&M UNIVERSITY
Department of
Nuclear Engineering

Apply for the Department of
Nuclear Engineering position
<http://apply.interfolio.com/157496>

Faculty Position #1: The Department of Nuclear Engineering invites applications for one tenured/tenure-track position. Areas of specialization may include, but are not limited to, modeling and simulation for fusion systems, material science for fusion engineering, power engineering applied to fusion, laser technologies, and plasma engineering. We seek candidates with a multidisciplinary approach capable of advancing fusion technologies through innovative research and education.

For more information and to apply, please visit <http://apply.interfolio.com/157496>.

Texas A&M Engineering Experiment Station

Center for Advanced
Small Modular and
Micro Nuclear Reactors

Apply for the NUEN-CASMR position
<http://apply.interfolio.com/156811>

Faculty Position #2: The Center for Advanced Small Modular and Microreactor Center (CASMR) within the Department of Nuclear Engineering invites applications for one tenured/tenure-track position. Applications are invited from the areas of science, engineering, and technology, which include, but are not limited to, power engineering, advanced energy systems, reactor thermal hydraulics, advanced computational methods and simulation methodologies. We seek candidates who have multidisciplinary skills who can apply it at the intersection of various energy systems. Integrated high fidelity experimental and advanced simulation approaches are making it possible to accelerate their impact to create sustainable clean energy.

TEXAS A&M UNIVERSITY
Department of
Nuclear Engineering

Apply for the Department of
Nuclear Engineering position
<http://apply.interfolio.com/161693>

Faculty Position #3: The Department of Nuclear Engineering invites applications for one full-time, open-rank academic professional track (non-tenured) position at the lecturer, senior lecturer, instructional assistant professor, instructional associate professor, instructional professor, visiting assistant professor, visiting associate professor, visiting professor, associate professor of practice, professor of practice, visiting associate professor of the practice, or visiting professor of the practice level. The successful applicant will be required to teach undergraduate and graduate students in courses in the nuclear engineering discipline including, but not restricted to health physics, radiation physics, nuclear reactor theory, radiation detection, nuclear fusion and environmental nuclear engineering. The successful applicant is expected to participate in all aspects of the department's activities and serve the profession.
