

FACULTY JOB POSTING

PROFESSOR AND DEPARTMENT HEAD

NUCLEAR ENGINEERING

TEXAS A&M UNIVERSITY
Department of
Nuclear Engineering

JOB DESCRIPTION

The Department of Nuclear Engineering in the College of Engineering at Texas A&M University invites applications for the position of department head and tenured professor. The candidate must have notable accomplishments and experience in research, academic or industry leadership, teaching, and scholarship. The candidate must be an innovative and visionary leader with strong communication skills and a clear vision to serve as department head for a top engineering program in the country. We seek candidates who will recruit, retain, and lead outstanding faculty members to enhance the research and educational achievements of the department.

Specific duties and responsibilities include: 1) providing leadership of the faculty, staff, and students to define and achieve departmental goals 2) managing the department's staff, faculty, and finances 3) serving as liaison for the department to the College of Engineering and the Texas A&M University System 4) representing the department to state and federal agencies, private organizations, partners and collaborators, key industry groups, and the Nuclear Engineering Department Heads Organization 5) promoting the research and educational opportunities associated with the department to other nuclear engineering departments and other universities 6) providing leadership for continuing acquisition of internal and external resources for the department.

REQUIREMENTS

Applicants must have an earned doctorate in nuclear engineering or a closely related engineering or science discipline. Candidates should possess proven leadership and administrative skills and an established national reputation as a leader and a scholar consistent with an appointment to the rank of professor of nuclear engineering with tenure. Candidates should possess a proven record of successful management and leadership of externally funded projects, and they are expected to have excellent interpersonal skills. To ensure a candidate's ability to understand and effectively perform the duties expected of the department head, candidates are expected to have an established track record of leadership in academic organizations or in organizations with close ties to academic institutions.

JOB LOCATION: College Station, Texas

APPLICATION INFORMATION

apply.interfolio.com/145859

Applicants should submit a cover letter, curriculum vitae, personal statement to include philosophy and plans for research, teaching and service, as applicable, and a list of four references (including postal addresses, phone numbers and email addresses) by applying for this specific position at apply.interfolio.com/145859. Applicants should also submit a two-page statement summarizing their personal vision and goals for the Department of Nuclear Engineering's education and research, as well as their philosophy of academic leadership for achieving those goals. Full consideration will be given to applications received by August 31, 2024. Applications received after that date may be considered until the position is filled. It is anticipated the appointment will begin January 1, 2025.
