

“ORNL is where everything is happening, all at once. I have a platform to establish collaborations, access state-of-the-art tools and technology, and work alongside the smartest people to push the boundaries of research even further.”

—Jin Whan Bae

*Nuclear Reactor Analyst at  
Oak Ridge National Laboratory.*

*He also serves as Chair of the  
Oak Ridge/Knoxville Chapter of ANS.*

# NUCLEAR

TODAY. TOMORROW. ALWAYS.

Jin came to ORNL as an intern with a single intention: Do everything. From modeling the enormity of the nuclear fuel cycle to the microgram production of Californium-252 at the High Flux Isotope Reactor, he’s just started to experience all ORNL has to offer. Today’s early career professionals become tomorrow’s award-winning innovators and world-renowned experts at ORNL—so can you.

Reactor Design and Optimization | Materials and Fuels Innovation  
Fuel Cycle Integration | Facility Siting, Construction, and Licensing  
Radioisotope Production and Application | Safety, Safeguards, and Security
