Redefining supply-chain *readiness*

The nuclear sector is entering a new era of converging demand from subsequent license renewal and long-term operations to modernization, uprates and advanced reactors. You need suppliers ready to move at the pace of your progress.

Framatome is acting now to ensure the capacity and agility you depend on. Through a strengthened workforce, long-term world-class OEM partnerships, expanded facilities and bold investment in innovation, we're reinforcing the supply chain so you can move forward with certainty.

Count on it.
