

ICRS15-RPSD2026 on the horizon

Now is a good time to register for the 15th International Conference on Radiation Shielding and the 23rd American Nuclear Society Topical Meeting of the Radiation Protection and Shielding Division (ICRS15-RPSD2026), which will be held October 25–29.

The meeting, which is organized by the Korean Association for Radiation Protection and cosponsored by the American Nuclear Society, will be held on South Korea's Jeju Island at the Lotte Hotel. The registration fee is \$1,200, with a discounted rate of \$700 available to students.

ICRS15-RPSD2026 is set to cover a wide range of topics in radiation shielding and protection, including emerging technologies, regulatory developments, and best practices in safety.

The event will bring together leading experts in the field, including researchers, scientists, engineers, and professionals from academia, government, and industry to network, present findings, and discuss the latest advancements.

Through technical sessions, workshops, plenary talks, and social events, tool

Remote Ocean Systems

Your Source for Nuclear Pool Inspection and Lighting • Servicing the Industry for Over 40 Years

IC LINK Inspection System

- Pan & Tilt/LED Lights/HD Camera
- Controller w/Joystick

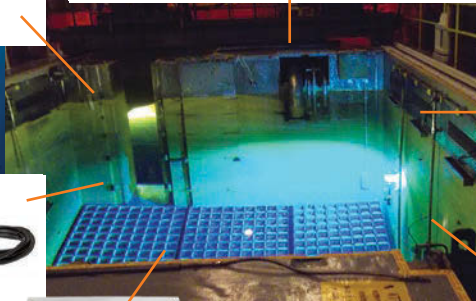

PTZ GenII IP-LINK Inspection System

- Lighter/Smaller for easier movability
- 1080P color camera
- Ethernet control
- DVR/GeoVision Recording Options

Illuminator LED Drop Light

- 30K Lumens
- Field Serviceable
- Small LED light head

HP-LED Light System

- 30K Lumens
- Stationary with Poles/Power Supply

PTZ-R High Rad 3:1/10:1 Zoom Color Camera

- > 150k rads/hr. Max accumulated dose > 3Mrads
- VPU/CPU with connecting cables

Single LED Droplight

- 10K Lumens • Small/Light Weight
