

Kybird

Services to replace Parr. Kybird assumed this position in April on an 18-month secondment from Nuclear Transport Solutions (NTS), where he has been CEO since that organization's formation in 2021. NTS was formed by combining Direct Rail Services, International Nuclear Services, and Pacific Nuclear Transport into a single transport organization for the NDA. Before joining NTS, Kybird was the managing director of International Nuclear Services.

Obituaries

Turhan Nejat Veziroglu, 100, ANS

Veziroglu

member since 1966; world-renowned hydrogen energy authority and pioneer; left his native Turkey in the 1940s for England, where he earned undergraduate and doctoral degrees in mechanical engineering from the University of London; during the 1950s, worked as an engineer and consultant in Turkey, including for the Electric Power Research Insti-

tute and for his family's construction company; became a professor at the University of Miami in the early 1960s, eventually serving as chair of the mechanical engineering department and associate dean for research; established the Clean Energy Research Institute at the university; founded the research and advocacy organization International Association for Hydrogen Energy (IAHE) in 1974; through IAHE, fostered partnerships between academia, industry, and government to study and develop hydrogen as a clean sustainable energy source; founding director of
