

all in on NUCLEAR

The U.S. Department of Energy's High Burnup Research Cask at Dominion Energy's North Anna Power Station will move to INL in 2027, enabling the Center for Used Fuel Research to gather data on high burnup used nuclear fuel. This DOE–Electric Power Research Institute collaboration supports the continued safe storage of used nuclear fuel at more than 50 U.S. nuclear plants.

We offer flexible schedules, relocation packages, competitive salaries and other benefits in one of the country's fastest growing states. **Apply now at inl.gov/careers**
