

PLUG INTO NUCLEAR@ IDAHO NATIONAL LABORATORY

INL is the home of clean nuclear energy, with a history of first-of-a-kind engineering achievements. Now we're preparing for a new generation of advanced nuclear reactors. The National Reactor Innovation Center is

constructing the Demonstration of Microreactor Experiments (DOME) test bed. Located in the renovated EBR-II reactor dome, DOME will host experimental reactors to help private industry commercialize new reactor technology.

If paper reactors aren't enough, join INL and help us build something amazing.

INL offers flexible schedules, relocation packages, competitive salaries and other benefits, in one of the fastest-growing states in the country. Apply now at <https://inl.gov/careers>
