

# AMERICAN DND

## EFFECTIVE, SAFE, REMOTE DUST SUPPRESSION AND CONTAMINATION CONTROL

21 YEAR ANNIVERSARY  
**TARGET  
ZERO**

Achieved  
750,000 MH (+)  
2004–2025

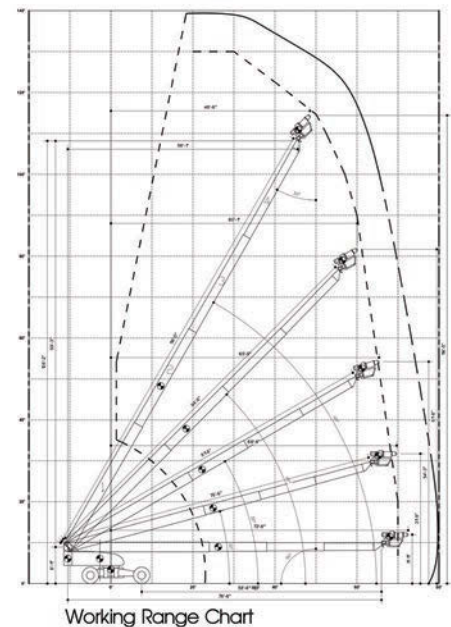

Able to spray Surfactants, Wetting Agents, Fixatives, and plain water ALL from the same machine, without changing, or clogging 'nozzles'. Easy, end of the day "lockdown" of debris piles.

### ENGINEERING DESIGN & FABRICATION

ADND provides specialized Professional Engineers (PE's) and SMEs with experience in the following:

- Structural Assessments to guard against premature collapse
- Demolition Work Instruction Plans and Detailed Execution Plans
- OSHA Pre-Demolition Engineering Surveys
- Design of Specialty Demolition Equipment, Attachments, and Tooling for unique applications.
- Design of Specialty Aerial Dust Suppression Systems (Turbine High Lifts).
- Design, development and implementation for Demolition Means and Methods of unique radiologically contaminated structures, systems, and components.
- 'De'-Construction Management for CONTROLLED IMPLOSIONS in Nuke Rated facilities.

It's no accident your project is performed safely when you hire American DND.  
Experience where it matters most: planning, design, execution!
