

# WORKING TOGETHER

## INTEGRATED FUEL CYCLE, RADIOACTIVE MATERIAL, AND WASTE MANAGEMENT SOLUTIONS

NAC International is a global leader in fuel cycle technology and consulting. Our team also supports the carbon-free nuclear industry by implementing environmentally friendly integrated fuel cycle, radioactive material, and waste management solutions. With our expanded team, we are the essential partner for contractors and facility owners responsible for containment and cleanup at sites across the U.S., Canada, and beyond.

Learn more about the expanding range of offerings from NAC's family of companies.
