Specialized Nuclear Outsourced Services and Workforce Solutions

For over 40 years, System One has provided outsourced services and workforce solutions to the nuclear power industry. Our customers include domestic utilities, government laboratories supporting the US Departments of Defense and Energy, NSSS OEMs, EPCs, and other specialty manufacturers and service providers within the industry. Our knowledge and focus have led to consistent yearly growth — making us one of the top 3 providers in the US.

exceptional talent. specialized solutions.

Outsourced Services

Our services are customized to meet your complex requirements across a wide spectrum of specialized and technical capabilities including:

- Advanced Nondestructive Testing and Quality Control Inspection
- NDE capabilities include PT, MT, VT, Microwave, UT, and RT, including PAUT and computer-aided RT services via our exclusive partnership with Evisive, LLC
- QC inspection services delivered by certified personnel
- NDE, QC, CWI, and pipeline inspection training at our certified training center
- Management resources for construction and capital projects, including smart meter installation, smart grid integration services, project scheduling, and project controls

Workforce Solutions

We design and deliver workforce solutions to meet your unique requirements for contract and permanent staff, both single placements and high-volume engagements. Our dedicated “nuke squad” team of operations staff and recruiters, coupled with advanced technologies, quickly deliver the talent required for plant operations, capital projects, new construction, repair and maintenance, refueling outage services, and plant decommissioning.

Our capabilities provide:

- Technical talent with the necessary credentials including security cleared personnel up to top-secret level
- Scale and flexibility through our Managed Staffing Program and Recruitment Process Outsourcing models driving speed and cost-savings
- Integrated talent workflow with other providers through our proprietary VMS technology to simplify the delivery process across all stakeholders
