

Out with the Old, In with the Upgrade

James Nguyen
Director of Electrical Engineering

Our Energy Future is Nuclear. Paragon is Proud to Power It.

Your electrical equipment is aging. Your plant can't afford to shut down, and you need to run another 40 years.

Paragon is here for your life extension needs. We have the largest installed base of MCCs and critical electrical equipment in the nuclear industry. Under our trusted NQA-1 program, we can design, manufacture, refurbish, and retrofit any type of MCC.

With Paragon's customized solutions, you can extend performance with confidence and keep your plant running strong for decades to come.
