

Building the future of nuclear. Globally.

John Portillo
VP, Global New Nuclear

Our Energy Future is Nuclear. Paragon is Proud to Power It.

New nuclear projects are advancing at an unprecedented pace, and Paragon is leading the charge.

We forge deep partnerships with developers and operators worldwide, facilitating projects from early design through commissioning success. Our innovative approach to first-of-a-kind engineering and custom-built, mission-critical equipment means no challenge is too complex.

No matter the scope, Paragon combines innovation with trusted reliability, delivering proven solutions built to meet the world's most demanding nuclear standards.
