

Look Inside Any Reactor

CoreVision[®]

Paragon's Neutron Flux Monitoring System is compact, reliable, and compatible with both legacy plants and advanced reactors.

Paragon works with customers to create brand new, cutting-edge systems designed to support life extension, solve obsolescence, and bring the nuclear industry into a new era.

The Energy Future is Nuclear. Paragon is Proud to Power It.

The Paragon logo consists of a stylized mountain range with three peaks above the word "Paragon" in a serif font. The word is underlined.
