

Nuclear Quality
Calibration and Testing Services

Partner with Constellation PowerLabs

for Reliability and
Trusted Results

Constellation PowerLabs is a **full-service calibration and testing laboratory**, proudly accredited to **ISO 17025 under A2LA**.

Our quality program is rigorously maintained and routinely audited by NUPIC and NIAC to meet the strict **requirements of 10 CFR 50, Appendix B and 10 CFR 21**, supporting the critical needs of the nuclear industry.

When you work with Constellation PowerLabs, you can count on us as your one-stop resource for quality testing and calibration.
