HiVE™

The HiVE™ System is a full service AI provider that can operate as an extension of your organization to deliver end-to-end, customer specific AI solutions.

CUSTOM AI SOLUTIONS & SERVICES

Joint Simulation & Modeling R&D
Reduces risks and improves safety, efficiency, training, compliance and prototyping

AI-Powered Process Optimization
Recommends optimal fuel loading patterns & refueling. Maximizes reactor power output and minimizes fuel usage

Predictive Maintenance
Advanced algorithms and machine learning anticipate equipment failures before they occur

Safety & Security
Anomaly detection identifies unusual patterns in data to detect potential safety hazards

Upskill the Workforce
Boost employee efficiency and enhance knowledge management by leveraging Generative AI tailored to your unique data

Contact us today to learn more about how you can put Westinghouse HiVE™ to work for you.

Optimizing Plant Operations with Turnkey Solutions

Safety. Reliability. Innovation. Collaboration. You can count on Westinghouse.

- Long-Term Sustainability Solutions
- Advanced Optimization Services
- Engineered Solutions
- Instrumentation & Controls Systems
- Non-Destructive Testing Inspections
- Outage Services
- Waste Management
- Parts & Components
- Operations, Engineering & Systems Training
- Simulation Services
- Staffing Solutions
