

# Incap Electronics US

## Your Electronics Manufacturing Partner.

### Who are We?

We are more than just a contract manufacturer. Incap US is a **true partner in high-reliability electronics manufacturing**. While many CM's exist in the US, the pool shrinks considerably when searching for a supplier with a **fully compliant Appendix B program**.

### Our Capabilities.

We collaborate with your engineering teams, providing **vital feedback on manufacturability** to optimize your designs for production. Our **state-of-the-art 70,000 sq. ft. facility**, highly skilled team, and strict quality control, ensures **efficiency, reliability, and compliance** at every step.

### Global Reach with Local Support.

**50** years  
of experience in  
electronics manufacturing

### End-to-End Solutions Tailored to You.

PCB assembly  
(prototype to high-volume)

Supply chain  
management

Experience in vintage  
designs/re-designs

Electro-Mechanical /  
Box Build Assembly

Component review  
and analysis

ISO9001:2008 and  
ISO13485:2003 certified

Design for Manufacturing  
(DFM)

Complex builds  
and quick turns

10CFR50 Appendix B  
compliant

**Call us today to see how Incap US makes it all come together.**
