

Mesut Uzman and **Sezin Uzman** to lead the development of the nuclear component of its advanced energy and artificial intelligence campus. Mesut was named chief

Mesut (left) and Sezin Uzman

nuclear officer, and Sezin was named vice president of nuclear supply chain and compliance for the project.

The Uzmans have more than two decades of combined experience in delivering new nuclear projects under regulatory, technical, and cultural conditions in different countries. Among recent projects on which they have worked is the United Arab Emirates' Barakah nuclear power plant.

The Finland-based welding and automation company Pemamek Oy has appointed **Christian Lefebvre** application manager for robotic

Lefebvre

welding solutions. In this position, he will be responsible for supporting customers in adopting and optimizing automated robotic welding technologies for

their needs.

Lefebvre has more than 24 years of international experience in welding engineering and robotics, the last 15 years of which have been with AGT Robotics, where

Fast, Efficient, and High Confidence in License Application Acceptance

Offering Best-In-Class Solutions for Nuclear Fuel Facility Planning and Licensing

Our Services Include:

- Conceptual Design and Licensing for Fuel Cycle Facilities
- Siting, Environmental Characterization, NEPA, and Regulatory Support
- Chemical and Radiological Dose Consequence Analysis and Dispersion Modeling
- Leading Integrated Safety Analysis
- Information Technology System Design, Installation, and Secure Operations

EMPOWERING NEW TECHNOLOGIES FOR A SECURE NUCLEAR FUTURE
