

The Nuclear Industry Is Moving Forward. We've Been Ready for 60 Years.

Advanced reactor designs. New construction in the U.S. and abroad. Demand that isn't slowing down.

Marmon Industrial Energy & Infrastructure has been manufacturing RSCC® nuclear-qualified cable for more than six decades. Our cables are qualified to IEEE 323 and IEEE 383 for a 60-year operating life. They're built to meet the requirements of new construction projects underway in the U.S., Korea, China, and the UAE. With one of the largest in-stock inventories of low-voltage nuclear cable in the industry and a **full NQA-1 quality program**, we're ready when you are.

Zero reported field failures. Trusted in more than 130 nuclear and DOE facilities worldwide.

Qualified cable solutions for every application: Firewall® III · Firewall® SR · PermaLife™ Medium Voltage · PermaLife™ Motor Lead · CAT-RAD® · Firezone® 3HR · Firezone® MC1 · Firewall® Coaxial/Triax/Twinax · CAB-RAD®
