

Visit us at **Booth #320** to learn more about NAC's family of companies.

LEADING THE WORLD IN FUEL CYCLE TECHNOLOGY

- **Integrated Fuel Cycle**
- **Radioactive Materials**
- **Waste Management**

As a global leader in fuel cycle technology and technical services, NAC International supports the nuclear industry by implementing environmentally friendly integrated fuel cycle, radioactive material, and waste management solutions.

Our growing team partners with contractors and facility owners for containment and cleanup at sites across North America and beyond.
