

Corrigendum

M. M. R. WILLIAMS, “Calculation of the Void Fraction and Void Coefficient in an Aqueous Homogeneous Reactor,” *Nucl. Sci. Eng.*, **168**, 138 (2011).

There are two typographical errors in Sec. VII.B regarding nuclear data.

In the section *Thermal group* the values should be

$$\Sigma_{aT} = 0.0529 \text{ cm}^{-1}$$

$$L^2 = D_T / \Sigma_{aT} = 3.93 \text{ cm}^2$$

These changes do not affect the results.
