

# NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 91, NUMBER 1, SEPTEMBER 1985

## CONTENTS

### TECHNICAL PAPERS

- 1 Burnup Sensitivity Analysis in a Fast Breeder Reactor—Part I: Sensitivity Calculation Method with Generalized Perturbation Theory *T. Takeda, T. Umamo*
- 11 Burnup Sensitivity Analysis in a Fast Breeder Reactor—Part II: Prediction Accuracy of Burnup Characteristics *Takanobu Kamei, Tadashi Yoshida, Toshikazu Takeda, Takuya Umamo*
- 34 Application of the Hermite Method for Finite Element Reactor Calculations *A. Hébert*
- 59 On the Markov Chain Analysis of Source Iteration Monte Carlo Procedures for Criticality Problems: I *T. Elperin, A. Dubi*
- 77 On the Markov Chain Analysis of Source Iteration Monte Carlo Procedures for Criticality Problems: II *A. Dubi, T. Elperin*
- 84 Transport of Thermal Neutrons in Crystalline and Amorphous Polyethylene at Various Temperatures *K. Swaminathan, S. P. Tewari*
- 95 Thermal Neutron Scattering Kernel for Polyethylene of Various Degrees of Crystallinity *K. Swaminathan, S. P. Tewari*

### TECHNICAL NOTES

- 109 Effect of Overlying Liquid Layer on Dryout Heat Flux Measurements *J. S. Marshall, V. K. Dhir*
- 114 Prompt Neutron Emission Probabilities Following Spontaneous and Thermal Neutron Fission *J. W. Boldeman, M. G. Hines*
- 117 Excitation of Neutron Flux Waves in Reactor Core Transients *J. F. Carew, P. Neogy*
