

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 92, NUMBER 4, APRIL 1986

CONTENTS

TECHNICAL PAPERS

- 491 Helium Production in Pure Elements, Isotopes, and Alloy Steels by 14.8-MeV Neutrons *D. W. Kneff, B. M. Oliver, Harry Farrar IV, L. R. Greenwood*
- 525 Neutron Transmission Measurement and Resonance Analysis of ^{93}Zr from 60 to 6000 eV *R. L. Macklin, J. A. Harvey, N. W. Hill*
- 531 Optimal Control of a Boiling Water Reactor in Load-Following via Multilevel Methods *Chaung Lin, Lawrence M. Grossman*
- 545 Biasing Parameter Limits for Synergistic Monte Carlo in Deep-Penetration Calculations *S. R. Dwivedi, H. C. Gupta*
- 550 Two-Parametric Presentation of Thermal Neutron Flux in Infinite Hydrogenous Media *D. Ingman, E. Taviv*
- 570 Radiation Transfer in a Cylindrical Vessel Containing High-Temperature Corium Aerosols *M. P. Mengüç, R. Viskanta*

TECHNICAL NOTES

- 584 Monte Carlo and Discrete Ordinates Calculations of 14-MeV Neutrons Streaming Through a Stainless Steel Duct: Comparison with Experiment I *R. T. Santoro, J. M. Barnes, R. G. Alsmiller, Jr., J. D. Drischler*
- 596 Gamma-Ray Energy Deposition Measurements in the Fast Breeder Blanket Facility *K. R. Koch, F. M. Clikeman, R. H. Johnson*

LETTERS TO THE EDITOR

- 606 On the Discrete Ordinates Method in Spherical Geometry *R. S. Modak*
- 607 On Efficient Estimation of Variances *Iván Lux*
- 608 Limitations on the Use of the THOR Critical Assembly for Validation of $n + ^{239}\text{Pu}$ Cross Sections *R. S. Keshavamurthy, S. Ganesan*
- 610 Response to "Limitations on the Use of the THOR Critical Assembly for Validation of $n + ^{239}\text{Pu}$ Cross Sections" *E. D. Arthur, P. G. Young, D. G. Madland, R. E. MacFarlane*
