

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 79, NUMBER 1, SEPTEMBER 1981

CONTENTS

TECHNICAL PAPERS

- 1 A Spring Model in Superheated Sodium Boiling: General Features and Comparison with an Experimental Test *A. Galati*
- 9 Transient Solidification of Liquid Metals in the Thermal Entry Region of a Circular Tube *M. S. Sadeghipour, M. N. Özişik, J. C. Mulligan*
- 19 Correlation of the Specific Surface Area and Bulk Density of Commercial Charcoals with Their Adsorption Capacity for Radioactive Krypton and Xenon *Dwight W. Underhill*
- 26 A Description of the Chemistry of Aqueous Solutions of Uranium and Plutonium to 200°C Using Potential-pH Diagrams *Jean Paquette, Robert J. Lemire*
- 49 Deuterium Exchange Between Water Mists and Hydrogen Gas in a Hydrophobic Catalyst Bed *Yamato Asakura, Hiroyuki Tsuchiya, Hideo Yusa, Shinpei Matsuda*
- 56 Average Energy of Delayed Neutrons from Individual Precursors and Estimation of Equilibrium Spectra *P. L. Reeder, R. A. Warner*
- 65 Subcritical Limits for Plutonium Systems *H. K. Clark*
- 85 The Variation of the Resonance Component of the Doppler Coefficient with Depletion of the Fissile Component of Reactor Fuel *A. Radkowsky, A. Galperin, T. Elperin*
- 99 An Efficient Solution Method for Optimal Control of Nuclear Systems *Joseph A. Naser, Paul L. Chambré*

TECHNICAL NOTES

- 110 A Particle Bed Dryout Model Based on Flooding *R. W. Ostensen, R. J. Lipinski*
- 113 Interpolation of Resonance Integrals *M. Segev*
- 118 Thorium Resonance Neutron Capture (2.6 to 10 keV) *R. L. Macklin*
- 123 A Rational Algebraic Function Fitted to the Klein-Nishina Energy Transfer Cross-Section Formula *László Koblinger*
- 124 Generalized Continuous Slowing Down Integral Transport Theory for Fast Reactor Fuel Cycle Analysis *Ahmed Badruzzaman, James Biffer, Tahmina Badruzzaman, Martin Becker*

(Continued)

VOLUME 79, NUMBER 1, SEPTEMBER 1981

CONTENTS
(Continued)

BOOK REVIEW

- 141 Lectures on Fast Reactors, Karl Wirtz *Raymond L. Murray*

CORRIGENDUM

- 142 Absolute Neutron Spectrum Measurements in a Lithium
Fluoride Integral Assembly for Fusion Reactor Data
Assessment *L. J. Perkins et al.*

- 143 **ANNOUNCEMENT OF CURRENT PUBLICATIONS**
