

# NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 117, NUMBER 4, AUGUST 1994

## CONTENTS

### TECHNICAL PAPERS

- |     |  |  |
|-----|--|--|
| 201 | Determination of the Double Angular and Energy Differential Gamma-Ray Albedo for Iron Material by Using the Monte Carlo Method | <i>C. M. Diop, B. Elhamzaoui,<br/>J. C. Nimal</i>                    |
| 227 | Monte Carlo Calculation of Dancoff Factors in Irregular Geometries   | <i>S. Fehér, J. E. Hoogenboom,<br/>P. F. A. de Leege, J. Valkó</i>   |
| 239 | Sensitivity, Uncertainty Assessment, and Target Accuracies Related to Radiotoxicity Evaluation                                 | <i>G. Palmiotti, M. Salvatores,<br/>R. N. Hill</i>                   |
| 251 | Photon Interaction Cross Sections of Several Sugars for $^{137}\text{Cs}$ and $^{60}\text{Co}$ Photons                         | <i>K. P. Gopinathan Nair,<br/>T. K. Umesh,<br/>Ramakrishna Gowda</i> |

### TECHNICAL NOTE

- |     |  |                      |
|-----|--|----------------------|
| 254 | Reduction of the Sodium Void Reactivity Effect by Using a $^{99}\text{Tc}$ Layer | <i>S. F. Kessler</i> |
|-----|--|----------------------|
