

# NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 98, NUMBER 3, MARCH 1988

## CONTENTS

### TECHNICAL PAPERS

- |     |   |   |
|-----|---|---|
| 183 | Analysis of Thermal Tests in a Pressurized Water Reactor Having Asymmetric Loop Flows               | <i>R. W. Lyczkowski,<br/>J. H. Kim, H. P. Fohs,<br/>H. M. Domanus</i> |
| 209 | Coolant Recirculation in a Pressurized Water Reactor Core Under Loss-of-Coolant Accident Conditions | <i>M. K. Moallemi, R. Viskanta</i>                                    |
| 226 | Effectiveness of a Consistently Formulated Diffusion-Synthetic Acceleration Differencing Approach   | <i>Hussein Khalil</i>   |
| 244 | Accuracy of the Modal-Local Method for Reactivity Determination                                     | <i>João Moreira, John C. Lee</i>                                      |
| 255 | The Periodic Dependence of Fission-Fragment Ranges on the Target Atomic Number $Z_2$                | <i>P. Dickstein, D. Ingman,<br/>N. H. Shafrir</i>                     |

### TECHNICAL NOTES

- |     |  |  |
|-----|--|--|
| 266 | Experimentally Determined Excitation Function for the $^9\text{Be}(n, t)$ Reaction | <i>H. Liskien, R. Widera,<br/>R. Wölfle, S. M. Qaim</i>          |
| 272 | Radiation Shielding Calculations for a 70- to 250-MeV Proton Therapy Facility      | <i>W. K. Hagan, B. L. Colborn,<br/>T. W. Armstrong, M. Allen</i> |
