

**CONTENTS****TECHNICAL PAPERS**

- |     |  |  |
|-----|--|--|
| 235 | Prediction of Gamma-Ray Spectra at Deep Penetration Utilizing the Equilibrium Angular Distribution     | <i>D. M. Johnson</i>   |
| 254 | Experimental Evidence of an Equilibrium Property in Gamma-Ray Angular Spectra Penetrating Bulk Shields | <i>D. M. Johnson,<br/>P. B. Woollam</i>  |
| 263 | The Yield of Short-Lived Gamma-Ray Emitting Nuclides from Fast- and Thermal-Neutron Fission            | <i>R. P. Larsen, N. D.<br/>Dudey, R. R. Heinrich,<br/>R. D. Oldham, R. J.<br/>Armani, R. J. Popek,<br/>R. Gold</i> |
| 273 | Cobalt Fast-Neutron Cross Sections   | <i>P. T. Guenther, P. A.<br/>Moldauer, A. B. Smith,<br/>J. F. Whalen</i>   |
| 286 | Neutron Cross Sections of Samarium-147 and Samarium-150  | <i>H. M. Eiland,<br/>S. Weinstein,<br/>K. W. Seemann</i>   |
| 300 | Evaluation of Uranium-238 Neutron Cross Sections from Spectral Measurements                            | <i>H. Bluhm, G. Fieg,<br/>H. Werle</i>   |
| 317 | The Ratio of the Uranium-233 to Uranium-235 Fission Cross Section                                      | <i>J. W. Meadows</i>   |
| 322 | Total Neutron Cross Sections of Uranium-235, Uranium-238, and Plutonium-239 from 0.5 to 15 MeV         | <i>R. B. Schwartz,<br/>R. A. Schrack,<br/>H. T. Heaton, II</i>   |
| 327 | Anisotropic Neutron Diffusion in Lattices of the Zero-Power Plutonium Reactor Experiments              | <i>Ely M. Gelbard</i>  |
| 341 | A Theory for Pulsed-Neutron Experiments in Reactor Lattices  | <i>J. J. Van Binnebeek</i>   |
| 353 | A Solution of the Milne Problem Using Full-Range Completeness of Case's Eigenfunctions                 | <i>S. K. Loyalka</i>   |

**TECHNICAL NOTES**

- |     |  |  |
|-----|--|--|
| 357 | Axial Neutron Streaming in Gas-Cooled Fast Reactors  | <i>P. Köhler, J. Ligou</i>             |
| 360 | The Effect of Position on the Criticality of Uranium Spheres in Uranium Solution Cylinders | <i>Robert E. Rothe,<br/>D. C. Hunt</i> |

**LETTERS TO THE EDITOR**
