

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 104, NUMBER 2, FEBRUARY 1990

CONTENTS

TECHNICAL PAPERS

- | | | |
|------------|--|---|
| 91 | A Synthetically Accelerated Weighted Diamond Scheme for Charged-Particle Transport Calculations | <i>J. J. Honrubia, J. E. Morel</i> |
| 112 | A Fundamental Derivation of the Nodal Diffusion Equation and Its Variation | <i>Hoju Moon,
Samuel H. Levine</i> |
| 123 | Harmonic Analysis of Stochastic Descriptors and the Interpretation of ^{252}Cf Neutron Source Experiments | <i>Felix C. Difilippo</i> |
| 135 | Interpretation of Noise Coherence Function Measurements in Liquid-Metal Fast Breeder Reactor Critical Assemblies | <i>Toshio Sanda</i> |
| 145 | A Method for Projecting Integral Measured Quantities | <i>D. K. Wehe, J. Schmidt</i> |
| 153 | Parity Simulation of Single-Phase Thermal Hydraulics | <i>Eduardo V. Depianto,
John E. Meyer</i> |
| 169 | Two-Phase Thermal-Hydraulic Analysis Using Parity Simulation | <i>Eduardo V. Depianto,
John E. Meyer</i> |

TECHNICAL NOTES

- | | | |
|------------|---|---|
| 183 | Some Findings in Neutron Multiplication Factor Monitoring | <i>Pedro A. Landeyro,
Tadeusz Zoltowski</i> |
| 188 | Effective Cross Sections and Sources in Moving Material | <i>B. R. Wienke, T. R. Hill</i> |

LETTERS TO THE EDITOR

- | | | |
|------------|---|--------------------------|
| 197 | Comments on "The Effect of Random Material Density on Reactor Criticality" | <i>E. G. Sakhnovsky</i> |
| 198 | Additional Comments on "The Effect of Random Material Density on Reactor Criticality" | <i>M. M. R. Williams</i> |
