

# NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 106, NUMBER 1, SEPTEMBER 1990

## CONTENTS

vii	Editorial	<i>Günther Kessler, Dan G. Cacuci</i>
ix	Foreword: Superphénix Physics	<i>Jacques Bouchard</i>
<b>TECHNICAL PAPERS</b>		
1	An Overview of Superphénix Commissioning Tests	<i>J. Gourdon, B. Mesnage, J. L. Voitellier, M. Suescun</i>
11	Superphénix Core-Loading Strategy Using the Checkerboard Pattern	<i>G. Flamenbaum, R. de Wouters, A. Le Bourhis, T. Newton, G. Vambenepe</i>
18	Measurement and Predictions of Control Rod Worth	<i>J. C. Gauthier, J. C. Cabrillat, G. Palmiotti, M. Salvatores, M. Giese, M. Carta, J. P. West</i>
30	Superphénix Reactivity and Feedback Coefficients	<i>M. Vanier, P. Bergeonneau, J. C. Gauthier, M. Jacob, J. de Antoni, E. Gesi, P. Peerani, J. P. Adam</i>
37	Power and Neutron Flux Distributions in the Core and Shielding	<i>J. C. Cabrillat, M. Martini</i>
47	Measurement of Core Thermal-Hydraulic Characteristics	<i>D. Leteinturier, B. Bernardin, M. Blanc, M. Paulin</i>
55	Assessment of Thermal-Hydraulic Characteristics of the Primary Circuit	<i>G. Francois, G. Azarian, J. C. Astegiano, C. Lacroix, G. Poet</i>
64	Analysis of Specific Control Rod Experiments Involving Highly Distorted Flux Distributions	<i>G. Flamenbaum, A. Zaetta, M. Martini, M. Michenot, T. Newton, H. Sztark</i>
69	An Analysis of the Dynamic Behavior of the Core	<i>Ph. Bergeonneau, M. Vanier, M. Favet, J. De Antoni, K. Essig, J. P. Adam</i>

(Continued)

## **CONTENTS**

**(Continued)**

- |           |   |   |
|-----------|---|---|
| <b>75</b> | Coolant Mixing Phenomena Influencing Measurements of Core Coolant Temperature Rises | <i>J. P. Pages, G. Francois,<br/>R. Vidard</i>                                  |
| <b>81</b> | Neutron Monitoring and the Inherent Source of Superphénix                           | <i>J. P. Grouiller,<br/>J. C. Perrigueur,<br/>A. Le Bourhis</i>                 |
| <b>88</b> | Comparison of Failed Fuel Detection Mock-Up with Superphénix Measurements           | <i>J. P. Trapp, M. Moro,<br/>Melle D. Garreton,<br/>M. Vanbenepe, P. Renaud</i> |
| <b>94</b> | Measurement of Decay Heat and Comparison with Predictions                           | <i>G. Gillet, M. Favet,<br/>M. Paulin</i>                                       |
