

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 56, NUMBER 4, APRIL 1975

CONTENTS

TECHNICAL PAPERS

- 321** A Generalized Diffusion Theory for Calculating the Neutron Transport Scalar Flux *Raymond E. Alcouffe*
- 340** Variational Functionals Which Admit Discontinuous Trial Functions *Paul Nelson, Jr.*
- 354** Nonlinear Oscillations in a Reactor with Two Temperature Coefficients *James P. Keener, Donald S. Cohen*
- 360** Calculational Methods for Nuclear Heating—Part I: Theoretical and Computational Algorithms *M. A. Abdou, C. W. Maynard*
- 381** Calculational Methods for Nuclear Heating—Part II: Applications to Fusion-Reactor Blankets and Shields *M.A. Abdou, C. W. Maynard*
- 399** Removal of Iodide from LiF-BeF₂ Melts by HF-H₂ Sparging—An Application to Iodine Removal from Molten Salt Breeder Reactor Fuel *C. F. Baes, Jr., R. P. Wichner, C. E. Bamberger, B. F. Freasier*

TECHNICAL NOTES

- 411** Transmission Probability Method of Integral Neutron Transport Calculation for Two-Dimensional Rectangular Cells *Hans Häggblom, Åke Ahlin, Takashi Nakamura*
- 422** Zero-Power Noise Analysis in a Reactor with Two Weakly Coupled Asymmetrical Fission Zones *Eckart Viehl*
- 427** A Benchmark Experiment of Neutron Propagation in Iron Used to Test ENDF/B Cross-Section Data *M. Martini, G. Palmiotti, M. Salvatores*
- 431** Power Reactor Calculations with the Finite Element Program FEM 2D *F. A. R. Schmidt, H. P. Franke*

LETTERS TO THE EDITOR

- 434** Comments on "Measurement of Anisotropic Neutron Diffusion Coefficients in Square Lattices of Aluminum in Light Water by the Pulsed Neutron Method" *M. M. R. Williams*
- 434** Comments on "On the Randomness of a Neutron's Kinetic Energy as It Slows Down by Elastic Collisions in an Infinite Medium" *S. L. Paveri-Fontana*

(Continued)

VOLUME 56, NUMBER 4, APRIL 1975

CONTENTS

(Continued)

- 436** Response to "Comments on 'On the Randomness of a Neutron's Kinetic Energy as It Slows Down by Elastic Collisions in an Infinite Medium'" *C. S. Barnett*

BOOK REVIEW

- 438** Annual Review of Nuclear Science, Emilio Segrè, Ed. *Eugene Guth*

- 440** **VOLUME 56 AUTHOR AND SUBJECT INDEXES**
