

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 59, NUMBER 3, MARCH 1976

CONTENTS

TECHNICAL PAPERS

- | | | |
|-----|---|---|
| 205 | Monte Carlo Surface Density Solution to the Dirichlet Heat Transfer Problem | <i>T. J. Hoffman, N. E. Banks</i> |
| 215 | A General Method for Generating Effective Resonance Cross Sections for Heterogeneous Media | <i>K. D. Kirby, R. A. Karam</i> |
| 231 | The $^{165}\text{Ho}(n,\gamma)$ Standard Cross Section from 3 to 450 keV | <i>R. L. Macklin</i> |
| 237 | Spectra of Bremsstrahlung Produced in Very Thick Lead Targets by 15-, 20-, and 25-MeV Electrons | <i>Takashi Nakamura,
Hideo Hirayama</i> |
| 246 | Moments Method Calculation of the Energy-Dependent Neutron Flux Due to a Point-Isotropic Fission Source in an Infinite Medium of Sodium | <i>E. E. Morris</i> |
| 261 | Effect of Anisotropy in Scattering on Neutron Angular Flux Inside Slabs | <i>Lakshmi Rangaswamy,
L. S. Kothari, Feroz Ahmed</i> |

TECHNICAL NOTES

- | | | |
|-----|---|---------------------------------|
| 271 | Accuracy of the Quasistatic Method for Two-Dimensional Thermal Reactor Transients with Feedback | <i>H. L. Dodds, Jr.</i> |
| 276 | Incorporation of Spectral Effects into One-Group Nodal Simulators | <i>Martin Becker</i> |
| 278 | Anisotropic Neutron Transport Without Legendre Expansions | <i>J. P. Odom, J. K. Shultz</i> |

LETTER TO THE EDITOR

- | | | |
|-----|--|-----------------------------|
| 282 | Remarks on "Neutron Transport with Temperature Feedback" | <i>Aldo Belleni-Morante</i> |
|-----|--|-----------------------------|

BOOK REVIEW

- | | | |
|-----|---|------------------------|
| 283 | Techniques in Nuclear Structure Physics, J. B. A. England | <i>T. F. Parkinson</i> |
|-----|---|------------------------|

- 285 ANNOUNCEMENT OF CURRENT TOPICAL REPORTS
