

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 121, NUMBER 2, OCTOBER 1995

CONTENTS

TECHNICAL PAPERS

- 173** Computation of Continuous-Energy Neutron Spectra with Discrete Ordinates Transport Theory *M. L. Williams, M. Asgari*
- 202** Conformal Mapping and Hexagonal Nodal Methods—I: Mathematical Foundation *Y. A. Chao, N. Tsoulfanidis*
- 210** Conformal Mapping and Hexagonal Nodal Methods—II: Implementation in the ANC-H Code *Y. A. Chao, Y. A. Shatilla*
- 226** Systematic Homogenization and Self-Consistent Flux and Pin Power Reconstruction for Nodal Diffusion Methods—I: Diffusion Equation-Based Theory *Hongbin Zhang, Rizwan-uddin, J. J. Dorning*
- 245** Analytic Function Expansion Nodal Method for Hexagonal Geometry *Nam Zin Cho, Jae Man Noh*
- 254** Comparison of PANTHER Nodal Solutions in Hexagonal-z Geometry *M. Knight, P. Hutt, I. Lewis*
- 264** Probabilistic Method of Discrete Ordinates in a Neutron Transport Problem *V. Khromov, E. Kryuchkov, G. Tikhomirov, L. Goncharov, V. Kondakov*
- 277** Parallel Implementation of Integral Transport Methods *Emilio Fuentes, Paul J. Turinsky*
- 286** Calculational Verification and Process Control Applications Utilizing the High Sensitivity of Noise Measurement Parameters to Fissile System Configuration *J. T. Mihalczko, T. E. Valentine*
- 301** Fuel-Temperature Coefficient for Boiling Water Reactor Transient Calculations: Its Dependence on Reactor Conditions *John M. Kallfelz, Lotfi A. Belblidia, Peter Grimm*
- 312** Employing Nodal Generalized Perturbation Theory for the Minimization of Feed Enrichment During Pressurized Water Reactor In-Core Nuclear Fuel Management Optimization *G. Ivan Maldonado, Paul J. Turinsky, David J. Kropaczek, Geoffrey T. Parks*
- 326** Qualification of the JEF2.2 Cross Sections in the Epithermal and Thermal Energy Ranges Using a Statistical Approach *Stéphane Cathalau, Amal Benslimane, Abdelmajid Maghnouj, Philippe Fougeras, Vladimir Ukraintsev*

(Continued)

CONTENTS

(Continued)

- 334** Radiation Streaming Analysis in the Radial and Tangential Beam Tubes of a TRIGA Research Reactor Using MCNP and Comparison with Measurement

*Ji Bok Lee, Byong Whie Lee,
Byung Chul Lee*

- 345** Quasi Solution of Radiation Transport Equation

*Leonid R. Pogosbekyan,
Dmitrij A. Lysov*
