

Fusion technology

CONTENTS / MAY 1995—VOL. 27, NO. 3

195 Comments / *George Miley*

SPECIAL SECTION: SPHERICAL PLASMA CONFIGURATIONS

199 Preface: Guest Editor's Comments / *E. Panarella*

TECHNICAL PAPERS

- 201 Magnetized Target Fusion: An Overview / *Ronald C. Kirkpatrick, Irvin R. Lindemuth, Marjorie S. Ward*
- 215 Laser-Initiated Diverging and Converging Spherical Blast Waves / *F. Bredice, I. Deha, F. Giammanco, A. Salvetti, D. P. Singh, M. Vaselli, E. Panarella, S. Del Tredici*
- 221 Plasma Compression and Heating by Converging Shock Waves / *F. Giammanco, S. Del Tredici, D. P. Singh, M. Vaselli*
- 230 A Critical Comparison Between Magnetic and Inertial Confinement Schemes and Their Geometries / *Nikos A. Salingaros*
- 237 X-Ray Emission from the Linear Plasma of a Spherical Pinch: The Electron Distribution Function in a Strong Electric Field / *S. Manservigi, V. G. Molinari, A. Nespoli*
- 245 Radiation Emission Characteristics from a Spherical Pinch High-Z Plasma: A Numerical Study / *Haibo B. Chen, Brian Hilko, Jiong Chen, Emilio Panarella*
- 255 Ball Lightning: What Nature Is Trying to Tell the Plasma Research Community / *J. Reece Roth*
- 271 Possible Precursors of Ball Lightning—Observation of Closed Loops in High-Voltage Discharges / *Igor Alexeff, Mark Rader*

REGULAR ISSUE CONTENTS

TECHNICAL PAPERS

PLASMA ENGINEERING

- 277 Corrected Fluid Equations for the Plasma Edge / *W. M. Stacey, Jr.*
- 292 Collisional Losses of Fast Particles in Low-Current Axisymmetric Tokamaks / *V. Ya. Goloborod'ko, V. V. Lutsenko, S. N. Reznik, V. A. Yavorskij*

(Continued)

CONTENTS / MAY 1995–VOL. 27, NO. 3

(Continued)

BLANKET ENGINEERING

- 298 Experimental Study of the Effect of External Pressure on Particle Bed Effective Thermal Properties / *Fatollah Tehranian, Mohamed A. Abdou*

MATERIALS ENGINEERING

- 314 Neutron Irradiation Damage of Silicon Carbide / *Tetsuya Suzuki, Toyohiko Yano, Tsutomu Mori, Hiroyuki Miyazaki, Takayoshi Iseki*

FUSION REACTORS

- 326 A Transmutation Facility for Weapons-Grade Plutonium Disposition Based on a Tokamak Fusion Neutron Source / *W. M. Stacey, B. L. Pilger, J. A. Mowrey, D. C. Norris, M. Dietsche, E. A. Hoffman, B. A. Abichedid, A. W. Anthony, M. S. Ayres, T. P. Belflower, J. D. Bohner, S. F. Caputlu, H. M. Coward, H. M. Diller, J. A. Favorite, P. T. Feir, J. S. Gustafson, N. L. Jenkins, T. L. Johnston, J. L. Martin, C. H. Nahass, D. M. Nichter, D. F. Parker, R. A. Sidwell, A. L. Turner, J. D. Wartell*

DEPARTMENTS

- 348 Letter to the Editor
Reply to "Response to 'Comments on "Electron Transitions on Deep Dirac Levels I"' / *R. A. Rice, Y. E. Kim, Mario Rabinowitz*
