

Fusion technology

CONTENTS / MARCH 1996—VOL. 29, NO. 2

iii Comments / *George Miley*

SPECIAL SECTION

TECHNICAL PAPERS

- 191 A Re-Examination of Spheromak Experiments and Opportunities / *E. Bickford Hooper, James H. Hammer, Cris W. Barnes, Juan C. Fernández, Fred J. Wysocki*
- 206 Theoretical Aspects of Energy Confinement in Spheromaks / *T. Kenneth Fowler*

MEETING REPORT

- 210 Summary of Workshop on Establishing the Physics Basis Needed to Access the Potential of Compact Toroidal Reactors, Oak Ridge, Tennessee, July 19–22, 1994 / *Y.-K. M. Peng, R. J. Goldston, R. J. Colchin, E. B. Hooper, S. M. Kaye, M. Ono, R. E. Siemon, R. Stambaugh, A. J. Wootton*

REGULAR ISSUE CONTENTS

TECHNICAL PAPERS

FUSION FUEL CYCLES

- 219 Plasma Exhaust Purification by Thermal Swing Adsorption: Experimental Results and Modeling / *I. Ricapito, C. Malara*
- 232 A Control Method for the Cryogenic Distillation Column with a Feedback Stream / *Toshihiko Yamanishi, Mikio Enoeda, Kenji Okuno, Robert H. Sherman*

PLASMA HEATING SYSTEMS

- 244 Collisionless Diffusion of Particles and Current Across a Magnetic Field in Beam/Plasma Interaction / *G. Manfredi, M. Shoucri, I. Shkarofsky, A. Ghizzo, P. Bertrand, E. Fijalkow, M. Feix, S. Karttunen, T. Pattikangas, R. Salomaa*

ELECTROLYTIC DEVICES

- 261 How to Produce the Pons-Fleischmann Effect / *Edmund Storms*

DIVERTOR SYSTEMS

- 269 Sensitivity of Neutral Throughput to Geometry and Plasma Position in the Tokamak Physics Experiment Divertor Region / *D. R. Juliano, D. N. Ruzic, D. Hill, K. A. Werley*

(Continued)

CONTENTS / MARCH 1996–VOL. 29, NO. 2

(Continued)

PLASMA ENGINEERING

- 277 Low Loop Voltage Startup and Equilibrium Control Using Multivariable Poloidal Field Coils in the Hitachi Tokamak HT-2 / *Mitsushi Abe, Kazuhiro Takeuchi*

SAFETY/ENVIRONMENTAL ASPECTS

- 294 Incorporating Safety and Environmental Aspects in Fusion Reactor Systems Studies—The Prerequisites, Impacts, and Applications / *S. K. Ho, L. J. Perkins*

TECHNICAL NOTE

NUCLEAR DATA

- 302 The Microstructure of Electrolytically Deuterium-Loaded Palladium Rods / *Swe-Kai Chen, Chi-Meen Wan, En-Hwei Liu, Shuh-Bair Chu, Chi-Yung Liang, Liq-Ji Yuan, Chi-Chiao Wan*

DEPARTMENTS

- 306 Meeting Report
Summary of Les Houches Physics Winter School on Intense Ion Beams and Target Physics for Inertial Confinement Fusion, Les Houches, France, March 13–17, 1995 / *C. Deutsch*
