CONTENTS / OCTOBER 1982—VOL. 59, NO. 1

## TECHNICAL PAPERS

### FISSION REACTORS

- 9 Tritium Analysis of Irradiated Burnable Poison Rods / *Filippo D'Annuncci, Elma Beth S. Pardue, Wilfried Rommelaere, Günter Bära*
- 14 Reduced Temperature Return-to-Power Demonstration / *C. E. Meyer, N. P. Mueller, M. Plumier, M. G. Watts, R. Leroy, C. J. Saint-Mard*

### NUCLEAR SAFETY

- 20 The German Risk Study: Accident Consequence Model and Results of the Study / *Anton Bayer, Klaus Burkart, Joachim Ehrhardt, Wolfgang Hübschmann, Manfred Schückler, Siegfried Vogt, Wolfgang Jacobi, Herwig G. Paretzke, Klaus-Rüdiger Trott, Eduard Hofer, Bernard Krzykacz*

### CHEMICAL PROCESSING

- 51 An Alternative Solvent Cleanup Method Using a Hydrazine Oxalate Wash Reagent / *O. K. Tallent, James C. Mailen*

### NUCLEAR FUELS

- 63 Determination of Thermal Accommodation Coefficients of Inert Gases on a Surface of Vitreous  $\text{UO}_2$  at  $\sim 35^\circ\text{C}$  / *Lloyd B. Thomas, Sudarshan K. Loyalka*
- 70 Behavior of (U,Pu) $\text{O}_2$  Sphere-Pac Fuel, with Plutonium in the Large Spheres Only, in Low Burnup Tests Under Pressurized Water Reactor Conditions / *Aart van der Linde, Jacques H. N. Verheugen*

### RADIOACTIVE WASTE MANAGEMENT

- 78 Some Preliminary Waste Management Considerations for Ground Processing Systems Supporting the Space Option / *D. William Tedder*
- 85 Evaluation of an International, Perpetual, and Retrievable Facility for Storage of Vitrified Radioactive Waste / *Leona Marshall Libby, M. G. Wurtele, Chris G. Whipple*

(Continued)

## ON THIS COVER

This month's cover is taken from a figure in the paper by Anton Bayer et al. of a graph showing the expected values of individual late fatality with respect to distance from one reactor unit.

# CONTENTS / OCTOBER 1982—VOL. 59, NO. 1

(Continued)

- 99 Fundamental Underwater Cutting Method Experiment as a Dismantling Tool for a Commercial Atomic Reactor Vessel / *Masanobu Hamasaki, Yasuichi Muraio, Fumikazu Tateiwa*
- 104 Rapid Estimation of the Regional Thermal Response to a Nuclear Waste Repository—Limiting Case Analysis / *Christopher J. Blesch, F. A. Kulacki, R. N. Christensen*
- 119 Regional Waste Treatment Facilities with Underground Monolith Disposal for All Low-Heat-Generating Nuclear Wastes / *Charles W. Forsberg*

## MATERIALS

- 136 Fatigue Crack Growth Curve in Air Environment at 300°C for Stainless Steels / *Jean-Louis Bernard, Georges S. Slama*

## HEAT TRANSFER AND FLUID FLOW

- 148 Distributions of Velocity and Turbulence in a Parallel Flow Along an Asymmetric Rod Bundle / *Klaus Rehme*
- 160 Enhancement of Heat Transfer Between Two Horizontal Liquid Layers by Gas Injection at the Bottom / *Heinrich Werle*

## TECHNIQUES

- 165 Design and Testing of an Electrochemical Carbon Meter for Sodium / *Thiagarajan Gnanasekaran, Hans U. Borgstedt, Günther Frees*
- 170 OPTO: Optimization Program for Multicomponent Activation Detectors / *P. A. Aarnio, M. J. Koskelo*

## DEPARTMENTS

- 1 Authors
- 186 Book Reviews
