

TECHNICAL PAPERS

FISSION REACTORS

- 343** Integral Fuel Burnable Absorbers with ZrB_2 in Pressurized Water Reactors / *Randy L. Simmons, Niel D. Jones, Frank D. Popa, Donald E. Mueller, James E. Pritchett*
- 349** Assessment of the SAFER03 Computer Code Using Advanced Boiling Water Reactor Test Data on a Loss-of-Coolant Accident / *Seihiro Itoya, F. D. Shum, Jun-ichiro Otonari, Hideo Nagasaka*
- 360** A Noninvasive Technique for the Evaluation of Diversion Cross Flow at the Inlet of a Simulated Fuel Rod Bundle / *Alireza Sedaghat, Frank S. Castellana, Robert H. Hsu, Robert B. Macduff*
- 371** A New Approach in Signal Processing for Sodium Boiling Noise Detection by Probability Density Function Estimates / *C. P. Reddy, Om Pal Singh, R. K. Vyjayanthi, R. Prabhakar*
- 380** A Semianalytic Method for the Solution of the Steady-State Steam Generator Equations / *Constantine P. Tzanos*
- 392** Selection of a Suitable Reactor Type for Water Desalination and Power Generation in Saudi Arabia / *Fahmy M. Hussein*
- 400** Vibration Monitoring of Kraftwerk Union Pressurized Water Reactors—Review, Present Status, and Further Development / *Hans Stölben, Hans-Jochen Wehling*

FUEL CYCLES

- 412** The Chemical State of Fission Products in Oxide Fuels at Different Stages of the Nuclear Fuel Cycle / *Heiko Kleykamp*
- 423** Optimal Axial Enrichment Distribution of the Boiling Water Reactor Fuel Under the Haling Strategy / *Kazuki Hida, Ritsuo Yoshioka*

CHEMICAL PROCESSING

- 431** The Effects of Organic Impurities on the Partitioning of Iodine / *Jeffrey B. Lutz, James L. Kelly*

(Continued)

ON THIS COVER

This month's cover is taken from Fig. 2 in the paper by Daugherty and Murty.

CONTENTS / MARCH 1988–VOL. 80, NO. 3

(Continued)

NUCLEAR FUELS

- 443** Application of Texture in Predicting Nuclear Fuel Cladding Creep / *William L. Daugherty, K. Linga Murty*
- 451** The FLASHCAL Process for the Fabrication of Fuel-Metal Oxides Using the Whiteshell Roto-Spray Calciner / *T. Sampat Sridhar*

RADIOACTIVE WASTE MANAGEMENT

- 462** On the Time-Dependent Behavior of a Cylindrical Salt Dome with a High-Level Waste Repository / *Jan Prij*
- 476** Designing Shafts for Handling High-Level Radioactive Wastes in Mined Geologic Repositories / *Douglas F. Hambley, John R. Morris*

DEPARTMENTS

- 337** Authors
- 483** Volume 80 Indexes
- v** Volume 80 Contents
