NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 177, NUMBER 1, MAY 2014

CONTENTS

TECHNICAL PAPERS

1	A Multilevel Projective Method for Solving the Space-Time Multigroup Neutron Kinetics Equations Coupled with the Heat Transfer Equation	*Apil Tamang, Dmitriy Y. Anistratov*
19	On P_N Interface and Boundary Conditions	*Richard Sanchez*
35	The Analytical Discrete Ordinates Method for a One-Dimensional Model of Neutral Particle Transport in Ducts	*R. D. M. Garcia*
52	Iterative Determination of Distributions by the Monte Carlo Method in Problems with an External Source	*Mihály Makai, Zoltán Szatmáry*
68	Kinematics of the ^{6}Li(n,t)^{4}He Reaction and Experimental Scenarios for Cross-Section Measurement	*R. Bencardino, R. Bevilacqua, G. Giorginis, F.-J. Hambsch*
77	Target Motion Sampling Temperature Treatment Technique with Elevated Basis Cross-Section Temperatures	*Tuomas Viitanen, Jaakko Leppänen*
90	Neutron Cross-Section Covariances in the Resolved Resonance Region for ^{55}Mn	*Young-Sik Cho, Young-Ouk Lee*

TECHNICAL NOTE

97	Possible Design of Long-Life Small Prismatic HTGR for Passive Decay Heat Removal	*Odmaa Sambuu, Toru Obara*
