

SPECIAL ISSUE ON TOUGH SYMPOSIUM 2012

iii Foreword / *Nicholas Tsoufanidis*

TECHNICAL PAPERS

THERMAL HYDRAULICS

- 117** Two-Phase Flow Modeling with TOUGH2-MP of a Deep Geological Repository Within the First Benchmark of the FORGE Project / *Manuel Lorenzo Sentís*
- 131** Extension and Tuning of TOUGH2-MP EOS7R for the Assessment of Deep Geological Repositories for Nuclear Waste: Hydrogen, Arbitrarily Long Decay Chains, and Solubility Limits / *Th. U. Kaempfer, Y. Mishin, J. Brommundt, J. Roger, E. Treille, N. Hubschwerlen*

RADIOACTIVE WASTE MANAGEMENT AND DISPOSAL

- 147** Modeling Two-Phase-Flow Interactions Across a Bentonite Clay and Fractured Rock Interface / *Benoît Dessirier, Jerker Jarsjö, Andrew Frampton*
- 158** The Effect of Stress on Flow and Transport in Fractured Rock Masses Using an Extended Multiple Interacting Continua Method with Crack Tensor Theory / *Zhen Wang, Jonny Rutqvist, Yuan Wang, Colin Leung, Andrew Hoch, Ying Dai*
- 169** Modeling Transport of Water, Ions, and Chemical Reactions in Compacted Bentonite: Comparison Among TOUGHREACT, Numerrin, and COMSOL Multiphysics / *Aku Itälä, Mika Laitinen, Merja Tanhua-Tyrkkö, Markus Olin*
- 175** T2GGM: A Coupled Gas Generation Model for Deep Geologic Disposal of Radioactive Waste / *John Avis, Paul Suckling, Nicola Calder, Robert Walsh, Paul Humphreys, Fraser King*

THERMAL HYDRAULICS

- 188** Optimizing the Modeling Performance for Safety Assessments of Nuclear Waste Repositories by Approximating Two-Phase Flow and Transport by Single-Phase Transport Simulations / *Philipp Schaedle, Nicolas Hubschwerlen, Holger Class*

(Continued)

CONTENTS / AUGUST 2014—VOL. 187, NO. 2

(Continued)

REGULAR TECHNICAL PAPERS

FISSION REACTORS

- 198** Design Study on a Fast Reactor Metal Fuel Attaining Very High Burnup / *Hirokazu Ohta, Takanari Ogata, Toru Obara*

RADIATION MEASUREMENTS AND GENERAL INSTRUMENTATION

- 208** New Numerical Algorithm Method Considering the Self-Absorption of the Spherical Radioactive Sources Matrix to Calibrate a System of Two NaI Gamma Detectors / *Mohamed E. Krar, Ahmed M. El-Khatib, Mohamed S. Badawi*
