

# Fusion Science and Technology

CONTENTS / APRIL 2015—VOL. 67, NO. 3

Proceedings of the  
TENTH INTERNATIONAL CONFERENCE ON  
TRITIUM SCIENCE AND TECHNOLOGY  
(Part 2)  
October 21–25, 2013, Nice, France

- v Preface / *Annie-Laure Pecquet, Christian Grisolia*
- 471 Isotope Effects on Desorption Kinetics of Hydrogen Isotopes Implanted into Stainless Steel by Glow Discharge / *Masao Matsuyama, Masamitsu Kondo, Nobuaki Noda, Masahiro Tanaka, Kiyohiko Nishimura*
- 475 Tritium Permeation Characterization of Materials for Fusion and Generation IV Very High Temperature Reactors / *S. Thomson, K. Pilatzke, K. McCrimmon, I. Castillo, S. Suppiah*
- 479 Preparatory Steps for a Robust Dynamic Model for Organically Bound Tritium Dynamics in Agricultural Crops / *A. Melintescu, D. Galeriu, S. Diabaté, S. Strack*
- 483 Capture and Isotopic Exchange Method for Water and Hydrogen Isotopes on Zeolite Catalysts up to Technical Scale for Pre-Study of Processing Highly Tritiated Water / *Robert Michling, Adalbert Braun, Ion Cristescu, Helmut Dittrich, Manfred Glugla, Nando Gramlich, Nancy Lohr, Wataru Shu, Scott Willms*
- 487 Evaluation of Hydrogen Isotope Exchange Methodology on Adsorbents for Tritium Removal / *Gregg A. Morgan, S. Xin Xiao*
- 491 Production of Highly Tritiated Water for Tritium Exposure Studies / *C. Muirhead, K. Pilatzke, A. Tripple, N. Philippi, K. McCrimmon, I. Castillo, H. Boniface, S. Suppiah*
- 495 Correlation of Adsorption Isotherms of Hydrogen Isotopes on Mordenite Adsorbents Using Reactive Vacancy Solution Theory / *Kenzo Munakata, Ayano Nakamura, Yoshinori Kawamura*
- 499 Adsorption Characteristics of Water Vapor on Gear-Pellet and Honeycomb-Pellet Types of Adsorbents Containing A-Type Zeolite / *Ayano Nakamura, Kenzo Munakata, Keisuke Hara, Syodai Narita, Takahiko Sugiyama, Kenji Kotoh, Masahiro Tanaka, Tatsuhiko Uda*
- 503 Measurement of Uptake and Release of Tritium by Tungsten / *M. Nakayama, Y. Torikai, M. Saito, R.-D. Penzhorn, K. Isobe, T. Yamanishi, H. Kurishita*

(Continued)

# CONTENTS / APRIL 2015—VOL. 67, NO. 3

(Continued)

- 507** High Level Tritiated Water Monitoring by Bremsstrahlung Counting Using a Silicon Drift Detector / *Simon Niemes, Michael Sturm, Robert Michling, Beate Bornschein*
- 511** Behavior of Tritium Permeation Induced by Water Corrosion of Alpha Iron Around Room Temperature / *Teppei Otsuka, Kenichi Hashizume*
- 515** In-Situ Observation of Sputtered Particles for Carbon Implanted Tungsten During Energetic Hydrogen Isotope Ion Implantation / *Yasuhisa Oya, Misaki Sato, Hiromichi Uchimura, Naoko Ashikawa, Akio Sagara, Naoaki Yoshida, Yuji Hatano, Kenji Okuno*
- 519** Effect of Tritium on Corrosion Behavior of Chromium in 0.01 N Sulfuric Acid Solution / *M. Oyaidzu, K. Isobe, T. Hayashi*
- 523** Evaluation of the Response of Tritium-in-Air Instrumentation to HT in Dry and Humid Conditions and to HTO Vapor / *Hilary Phillips, Edwin Privas, Julian Dean*
- 527** Development and Testing of a Prototype Modular Tritium and Carbon-14 Gas Environmental Monitoring System / *Hilary Phillips, Marc Parisot, Julian Dean, Lauren Perrie, John Sephton*
- 531** Reliability and Availability Requirements Analysis for DEMO: Fuel Cycle System / *Tonio Pinna, Fabio Borgognoni*
- 535** Probing of the Neutrino Magnetic Moment at the Level of  $10^{-12} \mu_B$  with an Intense Tritium Source of (Anti)neutrino and Helium Target (Project) / *V. P. Martemyanov, A. A. Yukhimchuk, V. V. Popov, V. I. Aleshin, V. G. Tarasenkov, V. G. Tsinoev, A. A. Sabelnikov, V. V. Baluev, A. N. Golubkov, V. G. Klevtsov, A. V. Kuryakin, D. T. Sitdikov, L. N. Bogdanova*
- 539** Post Service Examination of Turbomolecular Pumps After Stress Testing With kg-Scale Tritium Throughput / *Florian Priester, Marco Röllig*
- 543** Tritium Processing for the European Test Blanket Systems: Current Status of the Design and Development Strategy / *I. Ricapito, P. Calderoni, Y. Poitevin, A. Aiello, M. Utili, D. Demange*
- 547** Enhanced Sensitivity of Raman Spectroscopy for Tritium Gas Analysis Using a Metal-Lined Hollow Glass Fiber / *Simone Rupp, Timothy M. James, Helmut H. Telle, Magnus Schlösser, Beate Bornschein*
- 551** Preheating Temperature Effect on Tritium Retention in VPS-W / *Misaki Sato, Hiromichi Uchimura, Kensuke Toda, Tomonori Tokunaga, Hideo Watanabe, Naoaki Yoshida, Yuji Hatano, Ryuta Kasada, Takuya Nagasaka, Akihiko Kimura, Yasuhisa Oya, Kenji Okuno*
- 555** Raman Spectroscopy at the Tritium Laboratory Karlsruhe / *Magnus Schlösser, Beate Bornschein, Sebastian Fischer, Timothy M. James, Florian Kassel, Simone Rupp, Michael Sturm, Helmut H. Telle*
- 559** How to Make Raman-Inactive Helium Visible in Raman Spectra of Tritium-Helium Gas Mixtures / *Magnus Schlösser, Oskari Pakari, Simone Rupp, Sebastian Mirz, Sebastian Fischer*
- 563** Highly Tritiated Water Processing by Isotopic Exchange / *W. M. Shu, I. Cristescu, R. Michling, D. Demange, R. S. Willms, M. Glugla*

(Continued)

# CONTENTS / APRIL 2015—VOL. 67, NO. 3

(Continued)

- 567** Application of Computational Fluid Dynamics for the Simulation of Cryogenic Molecular Sieve Bed Adsorber of Hydrogen Isotopes Recovery System for Indian LLCB-TBM / *V. Gayathri Devi, Amit Sircar, B. Sarkar*
- 571** The AGHS at JET and Preparations for a Future DT Campaign / *Robert Smith, JET EFDA Contributors*
- 576** Design and Tritium Permeation Analysis of China HCCB TBM Port Cell / *Song Jiangfeng, Huang Guoqiang, Huang Zhiyong, Chen Chang'an, Luo Deli*
- 580** Thermal Release of  $^3\text{He}$  from Tritium Aged  $\text{LaNi}_{4.25}\text{Al}_{0.75}$  Hydride / *Gregory C. Staack, Mark L. Crowder, James E. Klein*
- 584** Separative Analyses of a Chromatographic Column Packed with a Core-Shell Adsorbent for Lithium Isotope Separation / *Takahiko Sugiyama, Kei Sugiura, Youichi Enokida, Ichiro Yamamoto*
- 588** Tritium Handling Experience at Atomic Energy of Canada Limited / *S. Suppiah, K. McCrimmon, S. Lalonde, D. Ryland, H. Boniface, C. Muirhead, I. Castillo*
- 592** Tritium Removal from Tritiated Water by Organic Functionalized SBA-15 / *Akira Taguchi, Yuki Kato, Rie Akai, Yuji Torikai, Masao Matsuyama*
- 596** Tritium Contamination and Decontamination of Sealing Oil for Vacuum Pump / *Toshiharu Takeishi, Kenji Kotoh, Yoshiya Kawabata, Jun-ichi Tanaka, Shingo Kawamura, Masayuki Iwata*
- 600** Development of a Tritium Monitor Combined with an Electrochemical Tritium Pump Using a Proton Conducting Oxide / *Masahiro Tanaka, Takahiko Sugiyama*
- 604** Microwave-Assisted Regeneration of Synthetic Zeolite Used in Tritium Removal Systems / *Masahiro Tanaka, Sadatsugu Takayama, Saburo Sano*
- 608** Enhanced Capacity and Stability for the Separation of Cesium in Electrically Switched Ion Exchange / *A. F. Tawfic, S. E. Dickson, Y. Kim, W. Mekky*
- 612** Investigation of Hydrogen Isotope Exchange Reaction Rate in Mixed Gas ( $\text{H}_2$  and  $\text{D}_2$ ) at Pressure up to 200 MPa Using Raman Spectroscopy / *V. V. Tikhonov, A. A. Yukhimchuk, R. K. Musyayev, A. I. Gurkin*
- 615** Tritium Release from SS316 Under Vacuum Condition / *Y. Torikai, R.-D. Penzhorn*
- 619** Tritium Trapping on the Plasma Irradiated Tungsten Surface / *Y. Torikai, V. Kh. Alimov, K. Isobe, M. Oyaidzu, T. Yamanishi, R.-D. Penzhorn, Y. Ueda, H. Kurishita, V. Philipps, A. Kreter, M. Zlobinski, TEXTOR Team*
- 623** Combustion Water Purification Techniques Influence on OBT Analysis Using Liquid Scintillation Counting Method / *C. Varlam, I. Vagner, I. Faurescu, D. Faurescu*
- 627** Source Term Evaluation for Accident Transients in the Experimental Fusion Facility ITER / *F. Virost, M. Barrachin, F. Cousin*
- 631** Dismantling of the PETRA Glove Box: Tritium Contamination and Inventory Assessment / *R. Wagner, D. Demange, E. Fanghänel, T. L. Le, M. Schwarz, K.-H. Simon*

(Continued)

# CONTENTS / APRIL 2015—VOL. 67, NO. 3

(Continued)

- 635** Tritium Laboratory Karlsruhe: Administrative and Technical Framework for Isotope Laboratory Operation / *S. Welte, U. Besserer, D. Osenberg, J. Wendel*
- 639** In-Line Chemical Sensor Deployment in a Tritium Plant / *J. S. Wright, R. D. Torres, B. Peters, D. T. Hope, L. L. Tovo*
- 643** Recent Advances in SRS on Hydrogen Isotope Separation Using Thermal Cycling Absorption Process / *Xin Xiao, L. Kit Heung, Henry T. Sessions*
- 647** The Permeation Behavior of Deuterium Through 1Cr18Ni9Ti Stainless Steel with TiN+TiC+TiN Multiple Films / *Xiong Yifu, Song Jiangfeng, Luo Deli, Lei Qianghua, Chen Chang'an*
- 650** Energy Density Dependence of Hydrogen Combustion Efficiency in Atmospheric Pressure Microwave Plasma / *T. Yoshida, N. Ezumi, K. Sawada, Y. Tanaka, M. Tanaka, K. Nishimura*
- 654** Measurement of Tritium with Plastic Scintillator Surface Improvement with Plasma Treatment / *Yuri Yoshihara, Etsuko Furuta, Ryu-ichiro Ohyama, Shigeaki Yokota, Yuka Kato, Tomoyuki Yoshimura, Kiyoshi Ogiwara*
- 658** Study on Hydrogen Isotopes Permeation in Fluidized State of Liquid Lithium-Lead / *Shunsuke Yoshimura, Ryosuke Yoshimura, Makoto Okada, Satoshi Fukada, Yuki Edao*
- 662** Application of Nonporous Alumina Based Ceramics as Structural Material for Devices Handling Tritium at Elevated Temperatures / *A. A. Yukhimchuk, A. S. Khapov, I. P. Maksimkin, V. V. Baluev, I. E. Boitsov, A. V. Vervey, S. K. Grishechkin, V. G. Kiselev, I. L. Malkov, R. K. Musyaev, V. V. Popov, D. T. Sitdikov*
- 666** Status of Efforts on Fundamental and Applied Studies with Tritium at RFNC-VNIIEF / *A. A. Yukhimchuk, R. I. Ilkaev*
- 671** Key Technologies for Tritium Storage Bed Development / *S.-H. Yun, M. H. Chang, H.-G. Kang, D. Y. Chung, Y. H. Oh, K. J. Jung, H. Chung, D. Koo, S. H. Sohn, K.-M. Song*
- 677** Acquired Experience Resulting from Transforming a Chemical Installation to a Nuclear / *Marius Zamfirache, Liviu Stefan, Anisia Bornea, Ioan Stefanescu*
- 681** Permeation of Hydrogen in Hastelloy C-276 Alloy at High Temperature / *Dongxun Zhang, Wei Liu, Yuan Qian, Ji Que*
