

MATERIALS PERFORMANCE IN NUCLEAR STEAM GENERATORS

(Presented at the ANS Second International Conference,
St. Petersburg, Florida, October 6-10, 1980)

PART TWO

TECHNICAL PAPERS

- 243** Fabrication Technology—Liquid-Metal Fast Breeder Reactor Steam Generators /
C. N. Spalaris, P. J. Ring, E. A. Wright
- 250** Material Selection and Optimization for Post-SNR-300 Steam Generators /
*J. Vrijen, J. K. van Westenbrugge, L. van der Wiel, P. L. F. Rademakers, C. P.
Scheepens, J. W. Schinkel*
- 259** Some Aspects of Materials Development for Sodium-Heated Steam Generators /
Prodyot Roy, C. N. Spalaris
- 270** Materials Development for a Fast Breeder Reactor Steam Generator Concept /
C. E. Sessions, S. D. Reynolds, Jr., M. A. Hebbar, J. F. Lewis, J. H. Kiefer
- 280** Steam Generator Tubing Development for Commercial Fast Breeder Reactors /
C. E. Sessions, C. F. Uber
- 289** Metallurgical Examination of Tube-to-Tube-Plate Welds Removed from Dounreay
Prototype Fast Reactor Evaporators / *G. R. Kirkland, E. R. Davies, M. E.
Lambert, E. J. Kennett*
- 302** Effect of Decarburization on Structural and Mechanical Properties of Ferritic
Steels / *A. A. Tavassoli, H. Touron, M. Weisz*
- 311** Flow-Induced Vibration and Wear of Steam Generator Tubes / *H. J. Connors*
- 332** Materials Property Requirements for Steam Generator Components in the Creep
Range / *D. S. Wood*
- 339** Water Chemistry of Breeder Reactor Steam Generators / *J. L. Simpson, M. N.
Robles, C. N. Spalaris, S. A. Moss*
- 349** A Chemical Cleaning Process for Nuclear Steam Generators / *P. V. Balakrishnan,
P. McSweeney, C. R. Frost, P. Walmsley*
- 362** Eddy Current Inspection of a 17-Year-Old Nuclear Steam Generator /
G. Van Druenen, V. S. Cecco

(Continued)

ON THIS COVER

This month's cover is taken from the paper by B. Mukherjee et al., and shows displacement transients corresponding to one equivalent year.

CONTENTS / NOVEMBER 1981—VOL. 55, NO. 2

(Continued)

- 371** Replacement of Damaged Steam Generator Tubing in 600-MW(electric) Canadian Deuterium Uranium Nuclear Plants / *R. H. Renshaw, S. Roy*
- 383** Effect of Environmental Variables on the Stress Corrosion Cracking of Inconel 600 Steam Generator Tubing / *T. S. Bulischeck, D. van Rooyen*
- 394** Effect of Heat Treatment on the Susceptibility to Stress Corrosion Cracking of Alloy 600 / *M. Kowaka, H. Nagano, T. Kudo, Y. Okada, M. Yagi, O. Takaba, T. Yonezawa, K. Arioka*
- 405** Model Boiler Inhibition Studies of the Nuclear Steam Generator Denting Phenomenon / *C. R. Wolfe, J. N. Esposito, D. D. Whyte, J. M. Gilkison, J. R. Balavage, M. J. Wootten, S. M. Wozniak*
- 422** Materials Model Boiler Tests for the Babcock & Wilcox Once-Through Steam Generators / *R. H. Emanuelson, D. F. Levstek, K. E. Moore, G. J. Theus*
- 436** A Stress Corrosion Cracking Evaluation of Inconel 690 for Steam Generator Tubing Applications / *G. P. Airey, A. R. Vaia, R. G. Aspden*
- 449** The Stress Corrosion Cracking of $2\frac{1}{4}$ Cr—Mo Ferritic Steel in Caustic Environments / *P. Hurst, H. C. Cowen*
- 460** Fretting and Wear of Stainless and Ferritic Steels in Liquid-Metal Fast Breeder Reactor Steam Generators / *Michael W. J. Lewis, Charles S. Campbell*
- 470** Examination of Leaking Tube-to-Tube-Plate Welds from an Austenitic Steel Steam Generator Superheater in the Dounreay Prototype Fast Reactor / *G. R. Kirkland, E. R. Davies, M. E. Lambert*
- 479** Creep Behavior Evaluation of Hastelloy X Welded Joint / *Kunihiko Satoh, Masao Toyoda, Shigetomo Matsui, Eisuke Mori, Shigeki Shimizu, Keisuke Satoh*
- 487** On the Temper Embrittlement of Manganese-Molybdenum-Nickel Steels / *S. G. Druce, B. C. Edwards*
- 499** A Study of Crack Initiation in Corrosion Fatigue of AISI Type 316 Stainless Steel by Dynamic Measurement of Corrosion Current Transients / *J. W. Martin, D. E. J. Talbot*
- 505** Low Cycle Fatigue of Steam Generator Tubes in the Vicinity of Roll Joints / *B. Mukherjee, M. H. El Haddad, M. L. Vanderglas, D. V. Leemans*
- 513** Studies of Denting of Steam Generators with Simulated Fresh Water In-Leakage / *James Brown, Francisco Gonzalez, David Iley, Alexandra McKay*
- 525** Metallurgical Examination of Cracked Feedwater Pipes from Nine Pressurized Water Reactors / *Brijesh Vyas, Carl J. Czajkowski, John R. Weeks*
