

# Fusion Science and Technology

VOLUME 71 · NUMBER 3 · APRIL 2017

## Selected papers from the Eleventh International Conference on Tritium Science and Technology—Part 1

April 17–22, 2016, Charleston, South Carolina

### Contents

v Preface

*Robert P. Addis, James E. Klein*

### TECHNICAL PAPERS

- 225** Review of the TLK Activities Related to Water Detritiation, Isotope Separation Based on Cryogenic Distillation and Development of Barriers Against Tritium Permeation  
*Ion Cristescu, A. Bükki-Deme, R. Carr, N. Gramlich, R. Groessle, C. Melzer, P. Schaefer, Stefan Welte*
- 231** The Five Phases to Standard Tritium Operation of KATRIN  
*Beate Bornschein, Uwe Besserer, Markus Steidl, Michael Sturm, Kathrin Valerius, Jürgen Wendel, KATRIN Collaboration*
- 236** Cernavoda Tritium Removal Facility—Evolution in TRF Design  
*L. Stefan, N. Trantea, A. Roberts, S. Strikwerda, A. Antoniazzi, D. Zaharia*
- 241** Water Detritiation System for ITER—Evaluation of Design Parameters  
*H. A. Boniface, N. V. Gnanapragasam, D. K. Ryland, S. Suppiah, A. Perevezentsev*
- 246** Release of Radiogenic Helium-3 from Uranium Tritide  
*J. Northall, J. P. Knowles*
- 251** Tritium Challenges and Plans for ITER Pellet Fueling and Disruption Mitigation Systems  
*M. S. Lyttle, L. R. Baylor, R. E. Battle, S. J. Meitner, D. A. Rasmussen, J. M. Shoulders*
- 256** Tritium Aspects of Fueling and Exhaust Pumping in Magnetic Fusion Energy  
*L. R. Baylor, S. J. Meitner*
- 261** Estimation of Tritium Permeation Rate to Cooling Water in Fusion DEMO Condition  
*Kazunari Katayama, Youji Someya, Kenji Tobita, Hirofumi Nakamura, Hisashi Tanigawa, Makoto Nakamura, Nobuyuki Asakura, Kazuo Hoshino, Takumi Chikada, Yuji Hatano, Satoshi Fukada*
- 268** Cavity Formation in Molybdenum Studied In Situ in TEM  
*D. C. Bufford, C. S. Snow, K. Hattar*

—continued—

## Contents continued

VOLUME 71 · NUMBER 3 · APRIL 2017

- 275** The Impact of Acid Treatments and Electropolishing Stainless-Steel Surfaces on Tritium Inventories  
*C. Fagan, M. Sharpe, W. T. Shmayda, W. U. Schröder*
- 281** Decontamination of Proton Exchange Membranes After Tritium Exposure  
*C. Muirhead, H. Li, K. Pilatzke, M. Byers, R. Carson, H. Boniface, S. Suppiah*
- 286** Leaching Tests of the Tritium Waste Immobilized in New Cement Mixtures  
*Viorel Fugaru, Cristian Postolache, Maria Gheorghe, Lidia Radu, Nastasia Saca*
- 290** A Suite of Robust Radioanalytical Techniques for the Determination of Tritium and Other Volatile Radionuclides in Decommissioning Wastes and Environmental Matrices  
*I. W. Croudace, P. E. Warwick, R. Marsh*
- 296** Fuel Inventory of the Multi-Bed Storage System of the SDS Considering Daily Operation of the Tokamak  
*Jae-Uk Lee, Min Ho Chang, Sei-Hun Yun, Jin-Kuk Ha, Euy Soo Lee, In-Beum Lee*
- 305** Recent Upgrades at the Safety and Tritium Applied Research Facility  
*Lee C. Cadwallader, Brad J. Merrill, Dean A. Stewart, L. Shayne Loftus*
- 310** Tritium Plasma Experiment Upgrade and Improvement of Surface Diagnostic Capabilities at STAR Facility for Enhancing Tritium and Nuclear PMI Sciences  
*M. Shimada, C. N. Taylor, R. J. Pawelko, L. C. Cadwallader, B. J. Merrill*
- 316** Experimental Performance Test of Key Components of the KATRIN Outer Tritium Loop  
*S. Welte, E. Fanghänel, S. Fischer, F. Kramer, T. L. Le, M. Sturm, N. Tuchscherer*
- 321** Evaluation of the Effects of Impurities on SAES ST198 Hydrogen Gettering  
*David W. James, Gregg A. Morgan*
- 326** Tritium Water Distillation Assisted with Adsorption and Isotopic Exchange  
*Y. Miho, S. Fukada, T. Motomura, J. Mizutani, S. Hirano, M. Arimoto, T. Takeuchi*
- 333** More Precise Values of Separation Factors in Water-Hydrogen Isotopic Exchange for Modeling of Combined Electrolysis and Catalytic Exchange Process  
*A. V. Ovcharov*

—continued—

## Contents continued

VOLUME 71 · NUMBER 3 · APRIL 2017

- 339** Tritium Level Evolution in the Environment at Experimental Pilot for Tritium and Deuterium Separation—ICSI  
*Carmen Varlam, Ioan Stefanescu, Ionut Faurescu, Nicolae Bidica, Irina Vagner, Denisa Faurescu, Diana Bogdan*
- 344** Using a Tritium Imaging Plate Technique to Measure the Hydrogen Solubility and Diffusivity of Zr-Doped  $\text{BaInO}_{2.5}$   
*Kenichi Hashizume, Yusaku Oki*
- 351** Development of H, D, T Simultaneous TDS Measurement System and H, D, T Retention Behavior for DT Gas Exposed Tungsten Installed in LHD Plasma Campaign  
*Yasuhisa Oya, Cui Hu, Hiroe Fujita, Kenta Yuyama, Shodai Sakurada, Yuki Uemura, Suguru Masuzaki, Masayuki Tokitani, Miyuki Yajima, Yuji Hatano, Takumi Chikada*
- 357** Tritium Behavior in HCPB Breeder Blanket Unit: Modeling and Experiments  
*E. Carella, C. Moreno, F. R. Ugorri, D. Demange, J. Castellanos, D. Rapisarda*
- 363** Compact Determination of Hydrogen Isotopes  
*David B. Robinson*
- 369** First Calibration of an IR Absorption Spectroscopy System for the Measurement of  $\text{H}_2$ ,  $\text{D}_2$ , and HD Concentration in the Liquid Phase  
*Robin GröBle, Alexander Kraus, Sebastian Mirz, Sebastian Wozniowski*
- 375** Design of a Spectroscopy Experiment for All Hydrogen Isotopologues in the Gaseous, Liquid, and Solid Phase  
*Sebastian Mirz, Uwe Besserer, Beate Bornschein, Robin GröBle, Bennet Krasch, Stefan Welte*
- 381** A Comparison of Tritium Dispersion Methodology for Accident Analysis in U.S. Department of Energy Complex Facilities  
*Kevin R. O’Kula, David C. Thoman, Selina K. Guardiano, Eric P. Hope*

### TECHNICAL NOTES

- 391** Estimation of Tritium Release from LLCB TBM and Its Ancillary Systems and Tritium Management in Different Locations of ITER  
*Priyanka Brahmabhatt, Amit Sircar, Rudreksh Patel, E. RajendraKumar, Sadhana Mohan, Kalyan Bhanja*

—continued—

## Contents continued

VOLUME 71 · NUMBER 3 · APRIL 2017

- 397** H-3 Measurement in Radioactive Wastes: Efficiency of the Pyrolysis Method to Extract Tritium from Aqueous Effluent, Oil, and Concrete  
*R. Brennetot, M. Giuliani, S. Guégan, P. Fichet, L. Chiri, P. Deloffre, A. Masset, C. Mougel, F. Bachelet*
- 403** Stainless Steel Passivation Using Electropolishing and Thermal Treatments  
*Paul Korinko, Richard Wyrwas, William Spencer, Brent Peters, Edward Stein, Dale Hitchcock*
- 410** Hydriding-Induced Wall Stress Evaluation of a Prototype Four-Inch Short (FISH) Tritium Hydride Bed  
*K. J. Heroux, E. G. Estochen*
- 416** Performance of a Depleted Uranium Bed for a Nuclear Fusion Fuel Cycle  
*Kwangjin Jung, Yeanjin Kim, Hongsuk Chung, Hee-Seok Kang, Sei-Hun Yun, Do-Hee Ahn*
- 422** Operational Maintenance Philosophy for Tritium Processing Systems  
*Melissa Golyski*
- 426** Direct Decomposition Processing of Tritiated Methane by Helium RF Plasma  
*Kazunari Katayama, Satoshi Fukada*
- 432** Recent Progress in the Experimental Study of LPCE Process on “EVIO” Pilot Plant  
*O. A. Fedorchenko, I. A. Alekseev, S. D. Bondarenko, T. V. Vasyanina*
- 438** Rigorous Two-Fluid and Three-Fluid Liquid Phase Catalytic Exchange Models and Their Application  
*Anthony Busigin*
- 444** Preliminary System Modeling for the EUROfusion Water Cooled Lithium Lead Blanket  
*Fernando R. Ugorri, Carlos Moreno, Elisabetta Carella, Jesús Castellanos, Alessandro Del Nevo, Ángel Ibarra*
- 450** Isolating Low Concentration of Tritium in Potable Water Using Simple Designed and Fabricated Process  
*Peter Ozemoyah, John Robinson*
