

Fusion Science and Technology

CONTENTS / JULY 2001—VOL. 40, NO. 1

iii Comments / *Nermin A. Uckan*

TECHNICAL PAPERS

- 1 A Study of Options for the Deployment of Large Fusion Power Plants / *John Sheffield, William Brown, Gary Garrett, James Hilley, Dennis McCloud, Joan Ogden, Thomas Shields, Lester Waganer*
- 37 Prediction of Performance in ITER-FEAT / *Hiroshi Matsumoto, Pietro Barabaschi, Yoshiki Murakami*
- 52 Electrical Energy Requirements for Accelerator and Fusion Neutrons / *Daniel L. Jassby, John A. Schmidt*
- 56 Virtual Cathode in a Stationary Spherical Inertial Electrostatic Confinement / *Hiromu Momota, George H. Miley*
- 66 Interface Current Integral Transport Methods for the Calculation of Neutral Atom Transport in the Edge Region of Fusion Plasmas / *Weston M. Stacey, John Mandrekas, Robert Rubilar*
- 79 Experimental Investigation of Magnetohydrodynamic Effects Caused by a Manifold Circular Pipe / *Zengyu Xu, Chuanjie Pan, Wenhao Wei*
- 86 Possible Explanation of ^4He Production in a Pd/D₂ System by the TNCF Model / *Hideo Kozima, Masayuki Ohta, Mitsutaka Fujii, Kunihito Arai, Hitoshi Kudoh*
- 91 Experimental Observation of Nuclear Reactions in Palladium and Uranium—Possible Explanation by Hydrex Mode / *J. Dufour, D. Murat, X. Dufour, J. Foos*

DEPARTMENTS

- 107 Letters to the Editor
Evidence of Micrometre-Sized Plasmoid Emission During Electrolysis Cold Fusion / *Edward Lewis*
Comments on "Evidence of Micrometre-Sized Plasmoid Emission During Electrolysis Cold Fusion" / *Taka-aki Matsumoto*
Comments on "Evidence of Micrometre-Sized Plasmoid Emission During Electrolysis Cold Fusion" / *Jorge Feugeas*
- 111 Meeting Report
Summary of the 18th International Atomic Energy Agency Fusion Energy Conference Technology and Power Plants Sessions / *S. L. Milora*
