DIII-D TOKAMAK SPECIAL ISSUE

Guest Editors: M. A. MAHDAVI and J. L. LUXON

v Comments / *Nermin A. Uckan*

vii Preface / *J. L. Luxon*

Introduction: The DIII-D Tokamak Systems

- 807** Overview of the DIII-D Fusion Science Program / *J. L. Luxon, T. C. Simonen, R. D. Stambaugh, DIII-D Team*
- 828** A Brief Introduction to the DIII-D Tokamak / *J. L. Luxon*
- 834** DIII-D Diagnostic Systems / *R. L. Boivin, J. L. Luxon, M. E. Austin, N. H. Brooks, K. H. Burrell, E. J. Doyle, M. E. Fenstermacher, D. S. Gray, M. Groth, C.-L. Hsieh, R. J. Jayakumar, G. R. McKee, C. J. Lasnier, A. W. Leonard, R. A. Moyer, T. L. Rhodes, J. C. Rost, D. L. Rudakov, M. J. Schaffer, E. J. Strait, D. M. Thomas, M. Van Zeeland, J. G. Watkins, G. W. Watson, W. P. West, C. P. C. Wong*
- 852** Current Profile Measurement on the DIII-D Tokamak / *R. J. Jayakumar, S. L. Allen, K. H. Burrell, L. L. Lao, M. A. Makowski, C. C. Petty, D. M. Thomas*

Achieving Reactor-Level Plasma Pressure

- 864** Stability Limits of High-Beta Plasmas in DIII-D / *E. J. Strait*
- 875** Theory and Simulation Basis for Magnetohydrodynamic Stability in DIII-D / *A. D. Turnbull, D. P. Brennan, M. S. Chu, L. L. Lao, P. B. Snyder*
- 906** Increasing the Tokamak Pressure Limit: Tearing Mode Experiments in DIII-D / *R. J. La Haye*
- 918** Resistive Wall Mode Stabilization Studies at DIII-D / *A. M. Garofalo*
- 931** An Understanding of H-Mode Pedestal Instabilities in the DIII-D Tokamak / *J. R. Ferron, P. B. Snyder*
- 945** Energetic Ion Experiments in DIII-D / *W. W. Heidbrink*
- 954** Disruption Physics and Mitigation on DIII-D / *D. G. Whyte, D. A. Humphreys, A. G. Kellman*
- 968** MHD Equilibrium Reconstruction in the DIII-D Tokamak / *L. L. Lao, H. E. St. John, Q. Peng, J. R. Ferron, E. J. Strait, T. S. Taylor, W. H. Meyer, C. Zhang, K. I. You*

(Continued)

CONTENTS / OCTOBER 2005—VOL. 48, NO. 2

(Continued)

Achieving Reactor Quality Plasma Confinement

- 978** Dimensionless Parameter Scaling of Transport in DIII-D / *C. C. Petty*
- 988** Transport Studies in DIII-D with Modulated Heat and Particle Sources / *J. C. DeBoo, D. R. Baker, M. R. Wade*
- 997** L-H Transition and Power Threshold Studies in the DIII-D Tokamak / *T. N. Carlstrom*
- 1011** Pedestal Studies in DIII-D / *R. J. Groebner, T. H. Osborne, M. E. Fenstermacher, A. W. Leonard, M. A. Mahdavi, R. A. Moyer, L. W. Owen, G. D. Porter, P. B. Snyder, P. C. Stangeby, T. L. Rhodes, N. S. Wolf*
- 1021** Role of $E \times B$ Shear and Magnetic Shear in the Formation of Transport Barriers in DIII-D / *K. H. Burrell*
- 1042** Comparison of Experimental Fluctuation and Turbulence Measurements with Theory and Simulation at DIII-D / *T. L. Rhodes, G. R. McKee, P. A. Politzer, D. W. Ross*
- 1051** Rho-Star Scaling and Physically Realistic Gyrokinetic Simulations of Transport in DIII-D / *R. E. Waltz*
- 1060** GLF23 Modeling of Turbulent Transport in DIII-D / *J. E. Kinsey*

Plasma Heat and Particle Exhaust

- 1072** Divertor Physics and Concept Development on DIII-D and Doublet-III Tokamaks / *M. A. Mahdavi, S. L. Allen, M. E. Fenstermacher, R. Maingi, M. J. Schaffer, R. D. Stambaugh, M. R. Wade*
- 1083** Divertor Heat Flux Control Research on DIII-D / *A. W. Leonard for the DIII-D Divertor Team*
- 1096** Plasma-Surface Interaction Studies on DIII-D and Their Implications for Next-Step Fusion Experiments / *D. G. Whyte*
- 1117** Review of DIII-D H-Mode Density Limit Studies / *R. Maingi, M. A. Mahdavi*
- 1127** Developing Models for the DIII-D Boundary Plasma / *G. D. Porter, T. D. Rognlien, M. E. Rensink, N. S. Wolf, P. C. Stangeby*

Radio-Frequency Heating and Current Drive

- 1141** Electron Cyclotron Heating on DIII-D / *R. Prater, C. C. Petty*
- 1149** Plasma Heating in the Ion Cyclotron Range of Frequencies in DIII-D / *R. I. Pinsker*
- 1159** Radio-Frequency Current Drive in DIII-D / *C. C. Petty*
- 1170** The Bootstrap Current and Neutral Beam Current Drive in DIII-D / *P. A. Politzer*

(Continued)

CONTENTS / OCTOBER 2005—VOL. 48, NO. 2

(Continued)

Advanced Tokamak Scenarios

- 1178** High-Performance Regimes in DIII-D / *C. M. Greenfield*
- 1199** Hybrid Scenario Development in DIII-D / *M. R. Wade, T. C. Luce, J. Jayakumar, P. A. Politzer, C. C. Petty, M. Murakami, J. R. Ferron, A. W. Hyatt, A. C. C. Sips*
- 1212** Development of Steady-State Advanced Tokamak Research in the DIII-D Tokamak / *T. C. Luce*

Technologies for Next-Step Devices

- 1226** The Electron Cyclotron Resonant Heating System on the DIII-D Tokamak / *John Lohr, Y. A. Gorelov, K. Kajiwara, Dan Ponce, R. W. Callis, J. L. Doane, R. L. Ellis, H. J. Grunloh, C. P. Moeller, J. Peavey, R. Prater, J. F. Tooker*
- 1238** Development of Next-Step-Relevant ICRF Technology in the DIII-D Program / *R. I. Pinsky*
- 1249** Integrated Plasma Control in DIII-D / *D. A. Humphreys, R. D. Deranian, J. R. Ferron, A. W. Hyatt, R. D. Johnson, R. R. Khayrutdinov, R. J. La Haye, J. A. Leuer, B. G. Penaflor, J. T. Scoville, M. L. Walker, A. S. Welander*

Appendix

- 1264** The DIII-D Team (1986–2005) and Their Affiliations
- 1266** Affiliations of the DIII-D Team Members
