

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 127, NUMBER 1, SEPTEMBER 1997

CONTENTS

TECHNICAL PAPERS

- | | | |
|----|---|---|
| 1 | Multidimensional Electron-Photon Transport with Standard Discrete Ordinates Codes | <i>C. R. Drumm</i> |
| 22 | Automatic Variance Reduction for Three-Dimensional Monte Carlo Simulations by the Local Importance Function Transform—I: Analysis | <i>Scott A. Turner,
Edward W. Larsen</i> |
| 36 | Automatic Variance Reduction for Three-Dimensional Monte Carlo Simulations by the Local Importance Function Transform—II: Numerical Results | <i>Scott A. Turner,
Edward W. Larsen</i> |
| 54 | Confidence Interval Procedures for Monte Carlo Transport Simulations | <i>S. P. Pederson,
R. A. Forster,
T. E. Booth</i> |
| 78 | Difficulties in Vector-Parallel Processing of Monte Carlo Codes | <i>Kenji Higuchi,
Kiyoshi Asai,
Yukihiro Hasegawa</i> |
| 89 | Effect of a 0.3-eV Resonance Cross Section for Plutonium on the Coolant Void Reactivity in a Heavy Water Lattice | <i>Yasuki Kowata,
Nobuo Fukumura</i> |
