

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 130, NUMBER 1, SEPTEMBER 1998

CONTENTS

TECHNICAL PAPERS

- | | | |
|-----|--|--|
| 1 | The Pencil Beam Problem for Screened Rutherford Scattering | <i>G. C. Pomraning,
Anil K. Prinja</i> |
| 18 | Characteristic Methods in Thick Diffusive Problems | <i>Marvin L. Adams,
Todd A. Wareing,
Wallace F. Walters</i> |
| 47 | Stabilization Techniques for the Nonlinear Analytic Nodal Method | <i>Han Gyu Joo, Guobing Jiang,
Thomas J. Downar</i> |
| 60 | A P_N Solution to the Multigroup Slowing-Down Problem—I: Basic Formulation | <i>A. D. Caldeira, A. F. Dias,
R. D. M. Garcia</i> |
| 70 | A P_N Solution to the Multigroup Slowing-Down Problem—II: The Degenerate Case | <i>A. D. Caldeira, A. F. Dias,
R. D. M. Garcia</i> |
| 79 | On the Equivalence Between the Discrete Ordinates and the Spherical Harmonics Methods in Radiative Transfer | <i>L. B. Barichello, C. E. Siewert</i> |
| 85 | The Stochastic Behavior of the Eigenvalue Due to Spatial Perturbation in the Fuel Distribution of the One-Speed Slab Reactor | <i>Salim N. Jahshan</i> |
| 98 | Higher Order Generalized Perturbation Theory for Boiling Water Reactor In-Core Fuel Management Optimization | <i>Brian R. Moore,
Paul J. Turinsky</i> |
| 113 | On-Line Estimation of Transit Time Using Artificial Neural Networks | <i>T. Tambouratzis,
M. Antonopoulos-Domis,
M. Marseguerra, E. Padovani</i> |
| 128 | Pressurized Water Reactor Reload Design by an Expert System | <i>Kuan-Jan Lin, Chung Lin</i> |
| 141 | Passive Neutron Assay of Plutonium Materials: Monte Carlo Procedures to Simulate Generation of Neutron Pulse Trains and the Application of the Neutron Coincidence Counting Method | <i>A. Dodaro, F. V. Frazzoli,
R. Remetti</i> |
| 153 | The Central Void Reactivity in the Oak Ridge National Laboratory Enriched Uranium (93.2) Metal Sphere | <i>J. T. Mihalczko, J. J. Lynn,
J. R. Taylor</i> |

CORRIGENDUM

- | | | |
|-----|---|----------------------------------|
| 164 | Analysis of the Transport of Radionuclide Chains in a Stochastic Geological Medium by a Biased Monte Carlo Simulation | <i>O. F. Smidts, J. Devooght</i> |
|-----|---|----------------------------------|
