

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 130, NUMBER 2, OCTOBER 1998

CONTENTS

TECHNICAL PAPERS

- | | | |
|-----|---|---|
| 165 | Experimental Determination and Simulation of the Reactivity Effects and Reaction Rate Sensitivity to Different Ranges of Neutron Energy in Homogeneous Heavy Water Solutions of Thorium | <i>Yu. E. Titarenko,
O. V. Shvedov,
M. M. Igumnov,
E. I. Karpikhin, V. F. Batyaev,
A. V. Lopatkin, V. I. Volk,
A. Yu. Vakhrushin,
S. V. Shepelkov,
S. G. Mashnik, T. A. Gabriel</i> |
| 181 | Red-Black Response Matrix Acceleration by Transformation of Interface Variables | <i>E. E. Lewis, G. Palmiotti</i> |
| 194 | The F_N Method for Multigroup Transport Theory with Upscattering | <i>R. D. M. Garcia, C. E. Siewert</i> |
| 213 | An Implicit Second-Order Numerical Method for Three-Dimensional Two-Phase Flow Calculations | <i>I. Toumi, D. Caruge</i> |
| 226 | Transfer Matrix Treatments in TRIMARAN-II, Nonequally Probable Step Function Representation in Multigroup Monte Carlo | <i>Li Mao, J. P. Both,
J. C. Nimal</i> |
| 239 | A High-Conversion Water Reactor Design | <i>Y. Ronen, Y. Dali</i> |
| 254 | (n, α) Reaction Cross Sections of ^{44}Ca , ^{45}Sc , and ^{51}V Nuclei from 13.6 to 14.9 MeV | <i>M. Subaşı, M. N. Erduran,
M. Bostan, I. A. Reyhancan,
E. Gültekin, G. Tarcan,
Y. Ozbir, A. Durusoy</i> |

TECHNICAL NOTE

- | | | |
|-----|---|-----------------------------|
| 261 | Improvements in the Theory of Identification of Burst-Shaped Events for Fault Diagnosis | <i>G. Szappanos, G. Por</i> |
|-----|---|-----------------------------|
